The provisions of this section shall not be construed to apply to the sale of simple reading magnifying glasses, toy glasses, goggles consisting of plano white or plano colored lenses or ordinary colored glasses, or to optometrists, physicians, or opticians who sell spectacles, eyeglasses, or lenses in prescription; provided, that seller of simple reading magnifying glasses shall have the following notice permanently affixed in plain view to the top of any point of sale display: "These magnifiers are not intended to be substitute for corrective lenses; only a professional eye examination can determine your eye health status and vision needs." This notice shall also be prominently displayed in all newspaper, magazine, and other advertisements for simple reading magnifying glasses. 7 to all providers, including, but not limited to, opticians, within the health plan’s or contract’s
8 geographic service area, of the opportunity to apply for credentials, and there is no discrimination
9 as to the rate or reimbursement for health care provided by an optician for similar services as

19 shall have practiced as opticians for a period of at least five (5) years, and one lay person who
20 shall be from the public. The members of the advisory committee shall be appointed for terms of
21 three (3) years; each member may serve a maximum of two (2) full terms. The duties of the
22 advisory committee for opticianry shall include but not be limited to advising the director on all
23 matters pertaining to the licensure and regulation of opticianry in this state.

24 **5-35.2-9. Persons exempt from requirements.** – Nothing in this chapter shall be

32 conduct of a character likely to deceive or defraud the public, or for any fraud or deception
33 committed in obtaining a license. “Unprofessional conduct” is defined as including, but is not
34 limited to:

1 (1) Conviction of one of the offenses set forth in section 23-17-37;

23 resistant by other methods. The provisions of this subsection do not apply if a physician or
24 optometrist, having found that those lenses will not fulfill the visual requirements of a particular
25 patient, directs, in writing, the use of other lenses and gives written notification to the patient.
26 Before they are mounted in frames, all impact-resistant eyeglasses and sunglass lenses, except
27 plastic lenses, laminated lenses, and raised ledge multifocal lenses must withstand an impact test
28 of a steel ball five-eighths (5/8) of an inch in diameter weighing approximately fifty-six
29 hundredths of an ounce (0.56 oz) dropped from a height of fifty inches (50"). Raised ledge
30 multifocal lenses are capable of withstanding the impact test but do not need to be tested beyond
31 initial design testing. To demonstrate that all plastic lenses and laminated lenses are capable of
32 withstanding the impact test, the manufacturer of the lenses shall subject to the impact test a
33 statistically significant sampling of lenses from each production batch, and the tested lenses are
34 representative of the finished forms as worn by the wearer. Plastic prescription and plastic non-

20 the application of that provision to other persons or circumstances shall not be affected.
