AN ACT

RELATING TO TAXATION - ALTERNATIVE FUEL INFRASTRUCTURE INCENTIVE

Introduced By: Representative Arthur Handy

Date Introduced: March 04, 2014

Referred To: House Finance

It is enacted by the General Assembly as follows:

SECTION 1. Title 44 of the General Laws entitled "TAXATION" is hereby amended by adding thereto the following chapter:

CHAPTER 39.4

ALTERNATIVE FUEL INFRASTRUCTURE INCENTIVE

44-39.4-1. Definitions. - As used in this chapter:

(1) "Alternative fuel for motor vehicles" means any of the following, which is used for the propulsion of motor vehicles:

   (i) Compressed natural gas;
   (ii) Liquefied natural gas;
   (iii) Liquefied petroleum gas;
   (iv) Hydrogen;
   (v) Any liquid at least eighty-five percent (85%) of the volume of which consists of ethanol;
   (vi) Electricity.

44-39.4-2. Tax credits for installing alternative fuel facilities. - (a) Refueling property credit – A taxpayer that constructs and installs and places in service in this state a qualified commercial or residential facility for dispensing alternative fuel for motor vehicles is allowed a credit equal to thirty percent (30%) of the cost to the taxpayer for the purchase of any equipment that is used for dispensing or storing alternative fuel for motor vehicles and thirty percent (30%)
of the cost to the taxpayer for the purchase of constructing and installing the part of the
dispensing facility, including pumps, storage tanks, and related equipment, that is used for
dispensing or storing alternative fuel for motor vehicles. A facility is qualified if the equipment
used to store or dispense alternative fuel for motor vehicles is labeled for this purpose and clearly
identified as associated with alternative fuel. For commercial facilities, the entire credit may not
be taken for the taxable year in which the facility is placed in service but must be taken in three
(3) equal annual installments beginning with the taxable year in which the facility is placed in
service. If, in one of the years in which the installment of a credit accrues, the portion of the
facility directly and exclusively used for dispensing or storing alternative fuel for motor vehicles
is disposed of or taken out of service, the credit expires and the taxpayer may not take any
remaining installment of the credit. The taxpayer may, however, take the portion of an installment
that accrued in a previous year and was carried forward to the extent permitted under chapters 11,
13, 14, 15, 17 and 30 of this title. For residential facilities, the entire value of the credit must be
claimed in the taxable year the costs are incurred.
(b) Property used by tax-exempt entity – In the case of any qualified commercial facility
for dispensing alternative fuel for motor vehicles sold to a tax-exempt nonprofit organization or
unit of state or local government, the person who sold such property to the person or entity using
the facility shall be treated as the taxpayer that placed the facility in service. The person taking
the credit must clearly disclose to the entity purchasing the property for the qualified facility any
credit allowed under this section.
SECTION 2. This act shall take effect upon passage and this chapter would be repealed
on January 1, 2018.

==========
LC005078
==========
This act would create tax incentives for the installation of alternative fuel facilities.

This act would take effect upon passage and this chapter would be repealed on January 1, 2018.
