42-11-10. Statewide planning program. -- (a) Findings. - The general assembly finds that the people of this state have a fundamental interest in the orderly development of the state; the state has a positive interest and demonstrated need for establishment of a comprehensive, strategic state planning process and the preparation, maintenance, and implementation of plans for the physical, economic, and social development of the state; the continued growth and development of the state presents problems that may not be met by the cities and towns individually and that require effective planning by the state; and state and local plans and programs may be properly coordinated with the planning requirements and programs of the federal government.
