services through compelling financial incentives for patients in their plans to utilize only the

services of providers with whom the insurers have contracted.

1	(3) Health care insurers also control the health care services rendered to patients through
2	utilization review programs and other managed care tools and associated coverage and payment
3	policies.
4	(4) By incorporation or merger the power of health care insurers in markets of this state
5	for health care services has become great enough to create a competitive imbalance, reducing
6	levels of competition and threatening the availability of high quality, cost effective health care.
7	(5) The power of health care insurers to unilaterally impose provider contract terms may
8	jeopardize the ability of physicians and other health care providers to deliver the superior quality
9	health care services that have been traditionally available in this state.
10	(6) It is the intention of the general assembly to authorize health care providers to jointly
11	discuss with health care insurers topics of concern regarding the provision of quality health care
12	through a committee established by an advisory to the health insurance commissioner.
13	42-14.5-2. Purpose.
14	With respect to health insurance as defined in § 42-14-5, the health insurance
15	commissioner shall discharge the powers and duties of office to:

28	rate hearings pursuant to § 42-62-13, regarding the rates, services, and operations of insurers
29	licensed to provide health insurance in the state; the effects of such rates, services, and operations
30	on consumers, medical care providers, patients, and the market environment in which such
31	insurers operate; and efforts to bring new health insurers into the Rhode Island market. Notice of
32	not less than ten (10) days of said hearing(s) shall go to the general assembly, the governor, the
33	Rhode Island Medical Society, the Hospital Association of Rhode Island, the director of health,

In making such recommendations, the commissioner shall recognize that it is the intent of the legislature that the maximum disclosure be provided regarding the reasonableness of individual administrative expenditures as well as total administrative costs. The commissioner shall make recommendations on the levels of reserves, including consideration of: targeted reserve levels; trends in the increase or decrease of reserve levels; and insurer plans for distributing excess reserves.

(c) To establish a consumer/business/labor/medical advisory council to obtain information and present concerns of consumers, business, and medical providers affected by health insurance decisions. The council shall develop proposals to allow the market for small business health insurance to be affordable and fairer. The council shall be involved in the planning and conduct of the quarterly public meetings in accordance with subsection (a). The advisory council shall develop measures to inform small businesses of an insurance complaint process to ensure that small businesses that experience rate increases in a given year may request and receive a formal review by the department. The advisory council shall assess views of the health-provider community relative to insurance rates of reimbursement, billing, and reimbursement procedures, and the insurers' role in promoting efficient and high-quality health care. The advisory council shall issue an annual report of findings and recommendations to the governor and the general assembly and present its findings at hearings before the house and senate finance committees. The advisory council is to be diverse in interests and shall include representatives of community consumer organizations; small businesses, other than those involved in the sale of insurance products; and hospital, medical, and other health provider organizations. 11	formats to patients regarding quality and costs. This information would help consumers make
12	informed choices regarding the facilities and/or clinicians or physician practices at which to seek
13	care. Among the items considered would be the unique health services and other public goods
14	provided by facilities and/or clinicians or physician practices in establishing the most appropriate

2	employer markets on premiums charged to individuals and small-employer groups.
3	(3) The analysis shall include examining the impact on rates in each of the individual and
4	small-employer-health insurance markets and the number of insureds in the context of possible
5	changes to the rating guidelines used for small-employer groups, including: community rating

3	SECTION 3. Title 23 of the General Laws entitled "HEALTH AND SAFETY" is hereby
4	amended by adding thereto the following chapter:
5	CHAPTER 95
6	THE RHODE ISLAND COMPREHENSIVE HEALTH INSURANCE PROGRAM
7	23-95-1. Legislative findings.
8	(a) The general assembly finds the following:
9	(1) Rising health care costs are a major economic threat to Rhode Islanders:
10	(i) Between 1991 and 2014, health care spending in Rhode Island per person rose by over
11	250% – rising much faster than income and greatly reducing disposable income; and
12	(ii) It is estimated that by 2025, the cost of health insurance for an average family of four
13	(4) will equal about one-half (1/2) of their annual income; and
14	(iv) In the U.S., about two-thirds (2/3) of personal bankruptcies have been medical cost-
15	related and of these, about three-fourths (3/4) of those bankrupted had health insurance; and
16	(v) Rhode Island private businesses bear most of the costs of employee health insurance
17	coverage and spend significant time and money choosing from a confusing array of increasingly
18	expensive plans which do not provide comprehensive coverage; and
19	(vi) Rhode Island employees and retirees are losing significant wages and pensions as
20	they are forced to pay higher amounts of health insurance and health care costs; and
21	(vii) The state and its municipalities face enormous other post employment benefits
22	(OPEB) unfunded liabilities mostly due to health insurance costs.
23	(b) Although Rhode Island significantly expanded health care coverage for its citizens
24	under the federal Affordable Care Act (ACA), it is not enough:
25	(1) Currently, about forty-seven thousand (47,000) Rhode Islanders remain uninsured,
26	and even fully implemented, the ACA would leave forty-two thousand (42,000) Rhode Islanders
27	four percent (4%) uninsured and many more underinsured - resulting in many excess deaths; and
28	(2) Efforts at the federal level to repeal or defund the ACA severely threaten the health
29	and welfare of Rhode Island citizens.
30	(c) The U.S. has hundreds of health insurance providers (i.e., multiple "payers") who
31	make our health care system unjustifiably expensive and ineffective:
32	(1) Every industrialized nation in the world, except the United States, offers universal
33	health care to its citizens under a "single payer" program and enjoys better health outcomes for
34	about one-half (1/2) the cost: and

1	(2) About one-third (1/3) of every health care dollar spent in the U.S. goes towards
2	administrative costs (e.g., paperwork, overhead, CEO salaries, and profits) rather than on actual
3	health care.
4	(d) The solution is for Rhode Island to institute an improved Medicare-for-all style single
5	payer program:
6	(1) Health care is rationed under our current multi-payer system, despite the fact that
7	Rhode Islanders already pay enough money to have comprehensive and universal health
8	insurance under a single-payer system; and
9	(2) Single payer health care would establish a true "free market" system where doctors
10	compete for patients rather than health insurance companies dictating which patients are able to
11	see which doctors and setting reimbursement rates; and
12	(3) The high costs of medical care could be lowered significantly if the state could
13	negotiate on behalf of all its residents for bulk purchasing, as well as gain access to usage and
14	price information currently kept confidential by private health insurers as "proprietary
15	information;" and
16	(4) In 1962, Canada's successful single payer program began in the province of
17	Saskatchewan (with approximately the same population as Rhode Island) and became a national
18	program within ten (10) years; and
19	(5) Single payer would provide comprehensive coverage that will include vision, hearing
20	and dental care, mental health and substance abuse services, as well as prescription medications,
21	medical equipment, supplies, diagnostics and treatments; and
22	(6) Health care providers will spend significantly less time with administrative work
23	caused by multiple health insurance company requirements and barriers to care delivery and will
24	spend significantly less for overhead costs because of streamlined billing.
25	(e) Rhode Island must act because there are currently no effective state or federal laws
26	that can adequately control rising premiums, co-pays, deductibles and medical costs, or prevent
27	private insurance companies from continuing to limit available providers and coverage.
28	23-95-2. Legislative purpose.
29	It is the intent of the general assembly that this act establish a universal, comprehensive,
30	affordable single-payer health care insurance program that will help control health care costs
31	which shall be referred to as, "the Rhode Island comprehensive health insurance program"
32	(RICHIP). The program will be paid for by consolidating government and private payments to
33	multiple insurance carriers into a more economical and efficient improved Medicare-for-all style
34	single payer program and substituting lower progressive taxes for higher health insurance

1	premiums, co-pays, deductibles and costs in excess of caps. This program will save Rhode
2	Islanders from the current overly expensive, inefficient and unsustainable multi-payer health
3	insurance system that unnecessarily prevents access to medically necessary health care.
4	23-95-3. Definitions.

23	23-95-5. Coverage.
24	(a) All qualified Rhode Island residents may participate in RICHIP. The director shall
25	establish procedures to determine eligibility, enrollment, disenrollment and disqualification,
26	including criteria and procedures by which RICHIP can:
27	(1) Identify, automatically enroll, and provide a RICHIP card to qualified Rhode Island
28	residents;
29	(2) Process applications from individuals seeking to obtain RICHIP coverage for
30	dependents after the implementation date;
31	(3) Ensure eligible residents are knowledgeable and aware of their rights to health care;
32	(4) Determine whether an individual should be disenrolled (e.g., for leaving the state);
33	(5) Determine whether an individual should be disqualified (e.g., for fraudulent receipt of
34	benefits or reimbursements);

1	(6) Determine appropriate actions that should be taken with respect to individuals who
2	are disenrolled or disqualified (including civil and criminal penalties); and
3	(7) Permit individuals to request review and appeal decisions to disenroll or disqualify
4	them.
5	(b) Medicare and Medicaid eligible coverage under RICHIP shall be as follows:
6	(1) If all necessary federal waivers are obtained, qualified Rhode Island residents eligible
7	for federal Medicare ("Medicare eligible residents") shall continue to pay required fees to the
8	federal government. RICHIP shall establish procedures to ensure that Medicare eligible residents
9	shall have such amounts deducted from what they owe to RICHIP under § 23-95-12(h). RICHIP
10	shall become the equivalent of qualifying coverage under Medicare part D and Medicare
11	advantage programs, and as such shall be the vendor for coverage to RICHIP participants.
12	RICHIP shall provide Medicare eligible residents benefits equal to those available to all other
13	RICHIP participants and equal to or greater than those available through the federal Medicare
14	program. To streamline the process, RICHIP shall seek to receive federal reimbursements for
15	services and goods to Medicare eligible residents and administer all Medicare funds.
16	(2) If all necessary federal waivers are obtained, RICHIP shall become the state's sole
17	Medicaid provider. RICHIP shall create procedures to enroll all qualified Rhode Island residents
18	eligible for Medicaid ("Medicaid eligible residents") in the federal Medicaid program to ensure a
19	maximum amount of federal Medicaid funds go to the RICHIP trust fund. RICHIP shall provide
20	benefits to Medicaid eligible residents equal to those available to all other RICHIP participants.
21	(3) If all necessary federal waivers are not granted from the Medicaid or Medicare
22	programs operated under Title XVIII or XIX of the Social Security Act, the Medicaid or
23	Medicare program for which a waiver is not granted shall act as the primary insurer for those
24	eligible for such coverage, and RICHIP shall serve as the secondary or supplemental plan of
25	health insurance coverage. Until such time as a waiver is granted, the plan shall not pay for
26	services for persons otherwise eligible for the same health care benefits under the Medicaid or
27	Medicare program. The director shall establish procedures for determining amounts owed by
28	Medicare and Medicaid eligible residents for supplemental RICHIP coverage and the extent of
29	such coverage.
30	(4) The director may require Rhode Island residents to provide information necessary to
31	determine whether the resident is eligible for a federally matched public health program or for
32	Medicare, or any program or benefit under Medicare.
33	(5) As a condition of eligibility or continued eligibility for health care services under
34	RICHIP, a qualified Rhode Island resident who is eligible for benefits under Medicare shall enroll

1	in Medicare, including Parts A, B, and D.
2	(c) Veterans. RICHIP shall serve as the secondary or supplemental plan of health
3	insurance coverage for military veterans. The director shall establish procedures for determining
4	amounts owed by military veterans who are qualified residents for such supplemental RICHIE
5	coverage and the extent of such coverage.
6	(d) This chapter does not create any employment benefit, nor require, prohibit, or limit
7	the providing of any employment benefit.
8	(e) This chapter does not affect or limit collective action or collective bargaining on the
9	part of a health care provider with their employer or any other lawful collective action o
10	collective bargaining.
11	<u>23-95-6. Benefits.</u>
12	(a) This chapter shall provide insurance coverage for services and goods (including
13	prescription drugs) deemed medically necessary by a qualified health care provider and that is
14	currently covered under:
15	(1) The federal Medicare program (Social Security Act title XVIII) parts A, B and D;
16	(2) The federal Medicaid program except that long-term care shall be available only to
17	those who currently qualify for Medicaid coverage;
18	(3) The state's Children's Health Insurance Program; and
19	(4) All essential health benefits mandated by the Affordable Care Act as of January 1
20	2017, including, services and goods within the following categories:
21	(i) Primary and preventive care;
22	(ii) Approved dietary and nutritional therapies;
23	(iii) Inpatient care;
24	(iv) Outpatient care;
25	(v) Emergency and urgently needed care;
26	(vi) Prescription drugs and medical devices;
27	(vii) Laboratory and diagnostic services;
28	(viii) Palliative care;
29	(ix) Mental health services;
30	(x) Oral health, including dental services, periodontics, oral surgery, and endodontics;
31	(xi) Substance abuse treatment services;
32	(xii) Physical therapy and chiropractic services;
33	(xiii) Vision care and vision correction;
34	(xiv) Hearing services, including coverage of hearing aids;

1	(XV) Founding Care,
2	(xvi) Comprehensive family planning, reproductive, maternity, and newborn care; and
3	(xvii) Short-term rehabilitative services and devices.
4	(b) Additional coverage. The director shall create a procedure in consultation with the
5	RICHIP advisory committee that may permit additional medically necessary goods and services
6	beyond that provided by federal laws cited herein and within the areas set forth in § 23-95-5, it
7	the coverage is for services and goods deemed medically necessary based on credible scientific
8	evidence published in peer-reviewed medical literature generally recognized by the relevant
9	medical community, physician specialty society recommendations, and the views of physicians
10	practicing in relevant clinical areas and any other relevant factors. The director shall create
11	procedures for handling complaints and appeals concerning the benefits package.
12	(c) Restrictions shall not apply. In order for RICHIP participants to be able to receive
13	medically necessary goods and services, this chapter shall override any state law that restricts the
14	provision or use of state funds for any medically necessary goods or services, including those
15	related to family planning and reproductive health care.
16	(d) Medically necessary goods:
17	(1) Prescription drug formulary:
18	(i) In general. The director shall work with the executive office of health and human
19	services (EOHHS) Rhode Island pharmacy & therapeutics committee to establish a prescription
20	drug formulary system, which shall comply with § 24-95-6(a)(4)(i) through (a)(4)(xvii) and
21	encourage best-practices in prescribing and discourage the use of ineffective, dangerous, or
22	excessively costly medications when better alternatives are available.
23	(ii) Promotion of generics. The formulary under this subsection shall promote the use of
24	generic medications to the greatest extent possible.
25	(iii) Formulary updates and petition rights. The formulary under this subsection shall be
26	updated frequently and the director shall create a procedure for patients and providers to make
27	requests and appeal denials to add new pharmaceuticals or to remove ineffective or dangerous
28	medications from the formulary.
29	(iv) Use of off-formulary medications. The director shall promulgate rules regarding the
30	use of off-formulary medications which allow for patient access but do not compromise the
31	<u>formulary.</u>
32	(v) Approved devices and equipment. The director shall work with the executive office of
33	health and human services (EOHHS) Rhode Island pharmacy & therapeutics committee to
34	promulgate a list of medically necessary goods that shall be covered by RICHIP and comply

1	with § 24-95-6(a)(4)(i) through (a)(4)(xvii).
2	(vi) Bulk purchasing. The director shall seek and implement ways to obtain goods at the
3	lowest possible cost, including bulk purchasing agreements.
4	23-95-7. Providers.
5	(a) Rhode Island providers.
6	(1) Licensing. Participating providers must meet state licensing requirements in order to
7	participate in RICHIP. No provider whose license is under suspension or has been revoked may
8	participate in the program.
9	(2) Participation. All providers may participate in RICHIP by providing items on the
10	RICHIP benefits list for which they are licensed. Providers may elect either to participate fully, or
11	not at all, in the program.
12	(3) For-profit providers. For-profit providers may continue to offer services and goods in
13	Rhode Island, but are prohibited from charging patients more than RICHIP reimbursement rates
14	for covered services and goods and must notify qualified Rhode Island residents when the
15	services and goods they offer will not be reimbursed fully under RICHIP.
16	(b) Out-of-state providers. Except for emergency and urgently needed service, as set forth
17	in § 23-95-7(d), RICHIP shall not pay for health care services obtained outside of Rhode Island
18	unless the following requirements are met:
19	(1) The patient secures a written referral from a qualified Rhode Island physician prior to
20	seeking such services; and
21	(2) The referring physician determines that the services are not available in the state or
22	cannot be performed within the state at the level of expertise that would provide medically
23	necessary care.
24	(c) Out-of-state provider reimbursement. The program shall pay out-of-state health care
25	providers an amount not to exceed RICHIP rates as set forth in § 23-95-9(a). RICHIP participants
26	are responsible for paying out-of-state providers for costs in excess of RICHIP reimbursements.
27	The RICHIP participant is responsible for paying all costs of out-of-state services that fail to meet
28	the requirements of §§ 23-95-7(b)(1) and (b)(2).
29	(d) Out-of-state emergency provider reimbursement. The program shall pay for
30	emergency and urgently needed services and goods that are obtained by the RICHIP participant
31	anywhere outside of Rhode Island to the same extent allowed if such services or goods were
32	provided in Rhode Island in accordance with § 23-95-9. RICHIP participants are responsible for
33	paying out-of-state emergency providers for costs in excess of RICHIP reimbursements.
34	(e) Out-of-state residents

(1) In general. Rhode Island providers who provide any services to individuals who are not RICHIP participants shall not be reimbursed by RICHIP and must seek reimbursement from those individuals or other sources.

(2) Emergency care exception. Nothing in this chapter shall prevent any individual from receiving or any provider from providing emergency health care services and goods in Rhode Island. The director shall adopt rules to provide reimbursement; however, the rules shall reasonably limit reimbursement to protect the fiscal integrity of RICHIP. The director shall implement procedures to secure reimbursement from any appropriate third-party funding source or from the individual to whom the emergency services were rendered.

23-95-8. Cross-border employees.

22.

(a) State residents employed out-of-state. If an individual is employed out-of-state by an employer that is subject to Rhode Island state law, the employer and employee shall be required to pay the payroll taxes as to that employee as if the employment were in the state. If an individual is employed out-of-state by an employer that is not subject to Rhode Island state law, the employee health coverage provided by the out-of-state employer to a resident working out-of-state shall serve as the employee's primary plan of health coverage, and RICHIP shall serve as the employee's secondary plan of health coverage. The director shall establish procedures for determining amounts owed by residents employed out-of-state for such supplemental secondary RICHIP coverage and the extent of such coverage.

(b) Out-of-state residents employed in the state. The payroll tax set forth in § 23-95-12(i) shall apply to any out-of-state resident who is employed or self-employed in the state. However, such out-of-state residents shall be able to take a credit for amounts they spend on health benefits for themselves that would otherwise be covered by RICHIP if the individual were a RICHIP participant. The out-of-state resident's employer shall be able to take a credit against such payroll taxes regardless of the form of the health benefit (e.g., health insurance, a self-insured plan, direct services, or reimbursement for services), to ensure that the revenue proposal does not relate to employment benefits in violation of the federal Employee Retirement Income Security Act ("ERISA") law. For non-employment-based spending by individuals, the credit shall be available for and limited to spending for health coverage (not out-of-pocket health spending). The credit shall be available without regard to how little is spent or how sparse the benefit. The credit may only be taken against the payroll taxes set forth in § 23-95-12(i). Any excess amount may not be applied to other tax liability. For employment-based health benefits, the credit shall be distributed between the employer and employee in the same proportion as the spending by each for the benefit. The employer and employee may each apply their respective portion of the credit to their

1	respective portion of the payroll taxes set forth in § 23-95-12(i). If any provision of this clause or
2	any application of it shall be ruled to violate ERISA, the provision or the application of it shall be
3	null and void and the ruling shall not affect any other provision or application of this section or
4	this chapter.
5	23-95-9. Provider reimbursement.
6	(a) Rates for services. RICHIP reimbursements to providers shall match the highest
7	reimbursement rates offered by Medicare or Medicaid to Rhode Island qualified residents that are
8	in effect at the time services and goods are provided. If the director determines that there are no
9	such federal reimbursement rates or that such rates are significantly different from those in
10	neighboring states, the director shall set additional or alternative rates in consultation with the
11	RICHIP advisory committee such that rates of reimbursement are fair and reasonable. The
12	director in consultation with the RICHIP advisory committee shall review the rates at least
13	annually and shall establish procedures by which complaints about reimbursement rates may be
14	reviewed and appealed.
15	(b) Rates for goods. The prices to be paid to providers for medically necessary goods
16	(e.g., prescription drugs, approved devices and equipment) shall be established annually by the
17	director in consultation with the advisory committee.
18	(c) Billing and payments. Providers shall submit billing for services to RICHIP
19	participants in the form of electronic invoices entered into RIFANS, the state's computerized
20	financial system. The director shall coordinate the manner of processing and payment with the
21	office of accounts and control and the RIFANS support team within the division of information
22	technology. Payments shall be made by check or electronic funds transfer in accordance with
23	terms and procedures coordinated by the director and the office of accounts and control and
24	consistent with the fiduciary management of the RICHIP trust fund.
25	(d) Provider restrictions. Providers who accept any payment from RICHIP may not bill
26	any patient for any covered benefit. Providers cannot use any of their operating budgets for
27	expansion, profit, excessive executive income, marketing, or major capital purchases or leases.
28	23-95-10. Private insurance companies.
29	(a) Non-duplication. It is unlawful for a private health insurer to sell health insurance
30	coverage to qualified Rhode Island residents that duplicates the benefits provided under this
31	chapter. Nothing in this chapter shall be construed as prohibiting the sale of health insurance
32	coverage for any additional benefits not covered by this chapter, including additional benefits that
33	an employer may provide to employees or their dependents, or to former employees or their
34	dependents (e.g., multiemployer plans can continue to provide wrap-around coverage for any

1	benefits not provided by RICHIP).
2	(b) Displaced employees. Re-education and job placement of persons employed in Rhode
3	Island-located enterprises who have lost their jobs as a result of this chapter shall be managed by
4	the Rhode Island department of labor and training or an appropriate federal retraining program.
5	The director may provide funds from RICHIP or funds otherwise appropriated for this purpose
6	for retraining and assisting job transition for individuals employed or previously employed in the
7	fields of health insurance, health care service plans, and other third-party payments for health care
8	or those individuals providing services to health care providers to deal with third-party payers for
9	health care, whose jobs may be or have been ended as a result of the implementation of the
10	program, consistent with applicable laws.
11	23-95-11. Budgeting.
12	(a) Operating budget. Annually, the director shall create an operating budget for the
13	program that includes the costs for all benefits set forth in § 23-95-5 and the costs for RICHIP
14	administration. The director shall determine appropriate reimbursement rates for benefits
15	pursuant to § 23-95-9(a). The operating budget shall be reviewed by the advisory committee and
16	approved by the executive board prior to submission to the governor and general assembly.
17	(b) Capital expenditures. The director shall work with the advisory committee,
18	representatives from state entities involved with provider capital expenditures (e.g., the Rhode
19	Island department of administration office of capital projects, the Rhode Island Health and
20	Educational Building Corporation, etc.), and providers to help ensure that capital expenditures
21	proposed by providers, including amounts to be spent on construction and renovation of health
22	facilities and major equipment purchases, will address health care needs of RICHIP participants.
23	To the extent that providers are seeking to use RICHIP funds for capital expenditures, the director
24	shall have the authority to approve or deny such expenditures.
25	(c) Prohibition against co-mingling operations and capital improvement funds. It is
26	prohibited to use funds under this chapter that are earmarked:
27	(1) For operations for capital expenditures; or
28	(2) For capital expenditures for operations.
29	23-95-12. Financing.
30	(a) RICHIP trust fund. There shall be established a RICHIP trust fund into which funds
31	collected pursuant to this chapter are deposited and from which funds are distributed. All money
32	collected and received shall be used exclusively to finance RICHIP. The governor or general
33	assembly may provide funds to the RICHIP trust fund, but may not remove or borrow funds from
34	the RICHIP trust fund.

1	(b) Revenue proposal. After consulting with the RICHIP advisory committee and gaining
2	approval of the RICHIP executive board, the director shall submit to the governor and the general
3	assembly a revenue plan and, if required, legislation (referred to collectively in this section as the
4	"revenue proposal") to provide the revenue necessary to finance RICHIP. The initial revenue
5	proposal shall be submitted for the fiscal year commencing the year after this this chapter is
6	enacted and annually, thereafter. The basic structure of the initial revenue proposal will be based
7	on a consideration of:
8	(1) Anticipated savings from a single payer program;
9	(2) Government funds available for health care;
10	(3) Private funds available for health care; and
11	(4) Replacing current regressive health insurance payments made to multiple health
12	insurance carriers with progressive contributions to a single payer (RICHIP) in order to make
13	health care insurance affordable and remove unnecessary barriers to health care access.
14	Subsequent proposals shall adjust the RICHIP contributions, based on projections from the total
15	RICHIP costs in the previous year, and shall include a five (5) year plan for adjusting RICHIP
16	contributions to best meet the goals set forth in this section and § 23-95-2.
17	(c) Anticipated savings. It is anticipated that RICHIP will lower health care costs by:
18	(1) Eliminating payments to private health insurance carriers;
18 19	(1) Eliminating payments to private health insurance carriers;(2) Reducing paperwork and administrative expenses for both providers and payers

(d) Federal funds. The director shall seek and obtain waivers and other approvals relating to Medicaid, the Children's Health Insurance Program, Medicare, the ACA, and any other relevant federal programs so that: (1) Federal funds and other subsidies for health care that would otherwise be paid to the

1	would be replaced or merged into RICHIP so it can operate as a single payer program;
2	(3) Maximum federal funding for health care is sought even if any necessary waivers or
3	approvals are not obtained and multiple sources of funding with RICHIP trust fund monies are
4	pooled, so that RICHIP can act as much as possible like a single payer program to maximize
5	benefits to Rhode Islanders; and
6	(4) Federal financial participation in the programs that are incorporated into RICHIP are
7	not jeopardized.
8	(e) State funds. State funds that would otherwise be appropriated to any governmental
9	agency, office, program, instrumentality, or institution for services and benefits covered under
10	RICHIP shall be directed into the RICHIP trust fund. Payments to the fund pursuant to this
11	section shall be in an amount equal to the money appropriated for those purposes in the fiscal
12	year beginning immediately preceding the effective date of this chapter.
13	(f) Private funds. Private grants (e.g., from nonprofit corporations) and other funds
14	specifically ear-marked for health care (e.g., from litigation against tobacco companies, opioid
15	manufacturers, etc.), shall also be put into the RICHIP trust fund.
16	(g) Assignments from RICHIP participants. Receipt of health care services under the plan
17	shall be deemed an assignment by the RICHIP participant of any right to payment for services
18	from a policy of insurance, a health benefit plan or other source. The other source of health care
19	benefits shall pay to the fund all amounts it is obligated to pay to, or on behalf of, the RICHIP
20	participant for covered health care services. The director may commence any action necessary to
21	recover the amounts due.
22	(h) Replacing current health insurance payments with progressive contributions. Instead
23	of making health insurance payments to multiple carriers (i.e., for premiums, co-pays,
24	deductibles, and costs in excess of caps) for limited coverage, individuals and entities subject to
25	Rhode Island taxation pursuant to § 44-30-1 shall pay progressive contributions to the RICHIP
26	trust fund (referred to collectively in this section as the "RICHIP contributions") for
27	comprehensive coverage. These RICHIP contributions shall be set and adjusted over time to an
28	appropriate level to:
29	(1) Cover the actual cost of the program;
30	(2) Ensure that higher brackets of income subject to specified taxes shall be assessed at a
31	higher marginal rate than lower brackets; and
32	(3) Protect the economic welfare of small businesses, low-income earners and working
33	families through tax credits or exemptions.
34	(i) Contributions based on earned income. The amounts currently paid by employers and

2	based on the projected average payroll of employees over three (3) previous calendar years. The
3	employer shall pay eighty percent (80%) and the employee shall pay twenty percent (20%) of this
4	payroll tax, except that an employer may agree to pay all or part of the employee's share. Self-
5	employed individuals shall initially pay one-hundred percent (100%) of the payroll tax. The ten
6	percent (10%) initial rate will be adjusted by the director so that higher brackets of income
7	subject to these taxes shall be assessed at a higher marginal rate than lower brackets and so that
8	small businesses and lower income earners receive a credit or exemption.
9	(j) Contributions based on unearned income. There shall be a progressive contribution
10	based on unearned income, i.e., capital gains, dividends, interest, profits, and rents. Initially, the
11	unearned income RICHIP contributions shall be equal to ten percent (10%) of such unearned
12	income. The ten percent (10%) initial rate may be adjusted by the director to allow for a
13	graduated progressive exemption or credit for individuals with lower unearned income levels.
14	23-95-13. Implementation.
15	(a) State laws and regulations.
16	(1) In general. The director shall work with the executive board and receive such
17	assistance as may be necessary from other state agencies and entities to examine state laws and
18	regulations and to make recommendations necessary to conform such laws and regulations to
19	properly implement the RICHIP program. The director shall report recommendations to the
20	governor and the general assembly.
21	(2) Anti-trust laws. The intent of this chapter is to exempt activities provided for under
22	this chapter from state antitrust laws and to provide immunity from federal antitrust laws through
23	the state action doctrine.
24	(b) Severability. If any provision or application of this chapter shall be held to be invalid,
25	or to violate or be inconsistent with any applicable federal law or regulation, that shall not affect
26	other provisions or applications of this chapter which can be given effect without that provision
27	or application; and to that end, the provisions and applications of this chapter are severable.
28	(c) The director shall complete an implementation plan to provide health care coverage
29	for qualified residents in accordance with this chapter within six (6) months of the effective date.
30	SECTION 4. This act shall take effect upon passage.

EXPLANATION

BY THE LEGISLATIVE COUNCIL

OF

AN ACT

RELATING TO HEALTH AND SAFETY -- COMPREHENSIVE HEALTH INSURANCE PROGRAM

1 This act would repeal the "Rhode Island Health Care Reform Act of 2004 - Health 2 Insurance Oversight" as well as the "Rhode Island Health Benefit Exchange." This act would also 3 establish a universal, comprehensive, affordable single-payer health care insurance program and 4 help control health care costs, which shall be referred to as, "the Rhode Island Comprehensive 5 Health Insurance Program" (RICHIP). The program will be paid for by consolidating government and private payments to multiple insurance carriers into a more economical and efficient 6 7 improved Medicare-for-all style single payer program and substituting lower progressive taxes 8 for higher health insurance premiums, co-pays, deductibles and costs due to caps. This program 9 will save Rhode Islanders from the current overly expensive, inefficient and unsustainable multi-10 payer health insurance system that unnecessarily prevents access to medically necessary health 11 care.

This act would take effect upon passage.
