18 **42-160.1-1. Short title.**

19 This act shall be known and may be cited as "The Housing Construction Act."

20 **42-160.1-2. Legislative findings.**

21 (a) Rhode Island suffers from a mass unemployment crisis, including in the building
22 industry.

23 (b) Housing is a human right. It is the responsibility of the government of Rhode Island to
24 ensure that every state resident has housing.

25 (c) Under chapter 53 of title 45, Rhode Island has set a goal to make at least ten (10) percent
26 of the year-round housing stock in each municipality affordable for low- and moderate-income
27 households. Rhode Island has not achieved this goal.

28 (d) There is currently an enormous shortage of affordable homes in Rhode Island. To
29 address this crisis, Rhode Island must build thousands of new, affordable homes and ensure that
30 they remain affordable.

31 (e) Project labor agreements help protect workers by ensuring fair wages, working
32 conditions, and salaries.

33 (f) Properly designed project labor agreements help the state meet workforce diversity
34 goals.

1 (g) Project labor agreements are necessary for building new homes due to the complexity
2 of the work.

3 (h) Project labor agreements provide the state with a guarantee that projects will be
4 completed with highly skilled and safely trained workers.

5 (i) Project labor agreements provide for peaceful, orderly, and mutually binding procedures
6 for resolving labor disputes, preventing significant lost-time on construction projects.

7 (j) Project labor agreements allow public agencies to predict more accurately the actual
8 cost of projects.

9 (k) Climate change poses a severe threat to every Rhode Island resident. Climate change is
10 drastically accelerated by human activity, particularly activities that emit greenhouse gases.

11 (l) In order to address the mass unemployment crisis, the severe shortage of affordable
12 housing units in Rhode Island, and the climate crisis, Rhode Island must build thousands of energy
13 efficient affordable housing units which are equipped with rooftop photovoltaic solar panels.

28 legal right to permit a photovoltaic solar panel system to be installed on their housing unit.

29 **42-160.3-6. Inspection and certification.**

30 (a) The housing jobs department shall send an Inspector to the selected housing unit
31 building of any individual who has submitted a free solar power application, provided that the
32 individual is eligible to submit a free solar power application and their application, in the
33 determination of the director, is reasonably likely to be approved. The inspector shall arrive at the
34 selected housing unit building at a time to which the free solar power applicant has agreed. The

1 inspector shall inspect the selected housing unit building to assess whether a photovoltaic solar
2 panel system could be safely installed on the selected housing unit building. In order to determine
3 whether a photovoltaic solar panel system could safely be installed on the selected housing unit
4 building, the inspector shall consider:

5 (1) Whether the roof or another area of the property can safely support the weight of a

14 building if the inspector determines that:

15 (1) A photovoltaic solar panel system could be safely installed on the applicant's selected
16 housing unit building; and

17 (2) The photovoltaic solar panel system, once installed on the applicant's selected housing
18 unit building, would not have significantly impaired exposure to sunlight.

19 (c) A safety and feasibility certification shall include:

20 (1) The inspector's recommendation as to the most appropriate location for the photovoltaic
21 solar panel system on the selected housing unit building. The inspector shall make every reasonable
22 effort to honor to the applicant's preference as to the location of the photovoltaic solar panel system,
23 as long as the applicant's preferred location would not compromise the safety of the selected
24 housing unit building's occupants or the structural integrity of the selected housing unit Building,
25 and would not significantly impair the solar panel system's exposure to sunlight.

26 (2) The inspector's recommendation as to the most appropriate type of photovoltaic solar
27 panel system to install on the applicant's selected housing unit building, including with respect to
28 size, shape, manufacturer, nameplate generation capacity, wiring, and any other relevant solar panel
29 features.

30 (i) When recommending a photovoltaic solar panel system for a single family residence,
31 the inspector shall recommend the installation of the photovoltaic solar panel system with the
32 highest nameplate generation capacity as is feasible without compromising the safety of the housing
33 unit's occupants or the structural integrity of the housing unit and without significantly impairing
34 the photovoltaic solar panel system's exposure to sunlight, except that the inspector shall not

1 recommend a photovoltaic solar panel system with greater than four thousand watts (4,000 W) of
2 nameplate generation capacity.

3 (ii) When recommending a photovoltaic solar panel system for a multifamily residence, the
4 Inspector shall recommend the installation of the photovoltaic solar panel system with the highest
5 nameplate generation capacity as is feasible without compromising the safety of the housing unit's
6 occupants or the structural integrity of the housing unit and without significantly impairing the
7 photovoltaic solar panel system's exposure to sunlight.

8 **42-160.3-7. Solar installation contract.**

9 (a) After an inspector has issued a safety and feasibility certification and determined the
10 most appropriate type of solar panel system to install on the applicant's selected housing unit

12 describing the proposed solar installation. The proposed solar installation shall include a description
13 of:

14 (1) The most appropriate location for the photovoltaic solar panel system on the selected
15 housing unit building, according to the inspector's recommendation provided in the safety and
16 feasibility certification; and

17 (2) The type of solar panel system that would be most appropriate to be installed on the
18 applicant's selected housing unit building, including with respect to size, shape, manufacturer,
19 nameplate generation capacity, wiring, and any other relevant solar panel features, according to the
20 inspector's recommendation in the safety and feasibility certification. The document shall also
21 provide prominently displayed estimates of approximately how much electricity the proposed solar
22 installation will produce in an average year, as well as an estimate of how much money the applicant
23 will save on their annual electricity bill if the proposed solar installation were installed.

24 (b) The bottom of the solar installation contract shall include a space for the applicant's
25 signature and date of signature, as well as clear and accessible language indicating that the applicant
26 is, under no circumstances, required to sign the solar installation contract. The solar installation
27 contract shall also indicate that, if the applicant signs the solar installation contract, they are
28 consenting to the installation of the proposed solar installation.

29 (c) The solar installation contract may include any additional provisions that the director
30 deems appropriate, provided such provisions are consistent with the requirements of this chapter.

31 **42-160.3-8. Free solar power application approval.**

32 (a) The housing jobs department shall review free solar power applications promptly, and
33 shall approve them according to the requirements of this subsection.

34 (b) The housing jobs department shall only approve a free solar power application if:

1 (1) An Inspector has issued a safety and feasibility certification of the applicant's selected
2 housing unit building;
3 (2) The applicant has signed the solar installation contract;
4 (3) The department intends to install photovoltaic solar panels on the applicant's selected
5 housing unit building within three (3) months; and
6 (4) When the housing jobs department is certain that it has the resources to finance the
7 entire cost of the installation, including, but not limited to:
8 (i) The cost of the photovoltaic solar panel system;
9 (ii) The costs related to the shipment and transportation of the photovoltaic solar panel
10 system;
11 (iii) The labor costs to compensate the solar jobs program workers who will install the
12 photovoltaic solar panel system;
13 (iv) The administrative costs to coordinate the installation;
14 (v) Any reasonably foreseeable routine maintenance, upkeep, and repairs that are the legal
15 and financial responsibility of the department, pursuant to § 42-160.3-13; and
16 (vi) Any other costs which the director deems appropriate for the department to pay for.
17 (c) After approving a free solar power application, an employee of the housing jobs
18 department shall:
19 (1) Promptly notify the applicant that their application has been approved; and
20 (2) Determine a mutually convenient time for both the department and the applicant to
21 install the proposed solar installation on the selected housing unit building.
22 (d) If an applicant has had their free solar power application approved, the housing jobs
23 department shall pay the full and complete cost of installing a photovoltaic rooftop solar panel
24 system on the applicant's selected housing unit building.
25 **42-160.3-9. Solar panel installation prioritization order.**
26 (a) The housing jobs department shall divide all free solar power applications into two (2)
27 categories:
28 (1) Free solar power single family residence applications; and
29 (2) Free solar power multifamily residence applications.
30 (b) When considering multiple free solar power single family residence applications, the
31 housing jobs department shall, at all times, prioritize a free solar power single family residence
32 application submitted by an individual with a lower cumulative adjusted gross household income
33 over a free solar power single family residence application submitted by an individual with a higher
34 cumulative adjusted gross household income.

1 (c) When considering multiple free solar power multifamily residence applications, the
2 housing jobs department shall, at all times, prioritize a free solar power multifamily residence
3 application for a selected housing unit in a census Tract with a lower median household income, as
4 calculated by the U.S. Census Bureau, over a free solar power multifamily residence application
5 for a selected housing unit in a census tract with a higher median household income, as calculated
6 by the U.S. Census Bureau.

7 **42-160.3-10. Advertising in low-income communities.**

8 The housing jobs department shall make substantial and sustained efforts to advertise the
9 solar jobs program in low-income communities across Rhode Island, including the availability of
10 free solar panel installations.

11 **42-160.3-11. Project labor agreements required.**

12 (a) Solar jobs program workers shall be paid not less than the wage rate established for
13 such work pursuant to a project labor agreement with the appropriate labor organization or labor
14 organizations, which shall include a:

15 (1) Mutually agreeable, lawful, and uniform grievance and arbitration procedure for the
16 resolution of work-related disputes involving solar jobs program projects;

17 (2) Mutually agreeable, lawful work rules, working conditions, and working schedules for
18 solar jobs program projects;

19 (3) Mutually agreeable, lawful terms regarding the benefits provided for workers working
20 on solar jobs program projects;

21 (4) Mutually agreeable, lawful terms regarding the use of apprenticeship programs and pre-
22 apprenticeship programs on solar jobs program projects;

23 (5) Mutually agreeable, lawful goals or requirements to promote workforce diversity for
24 solar jobs program projects, including, but not limited to, with regard to race and gender;

25 (6) Mutually agreeable, lawful goals or requirements to hire local residents who live near
26 the work site for solar jobs program projects; and

27 (7) Mutually agreeable, lawful goals or requirements to hire enrollees or former enrollees
28 of the just transition program established by the department of labor and training, pursuant to § 42-
29 16.1-21, to work on solar jobs program projects.

30 **42-160.3-12. Solar panel maintenance.**

31 (a) The department shall assume legal and financial responsibility for all routine
32 maintenance, upkeep, and repairs of the photovoltaic solar panel systems installed through the solar
33 jobs program.

34 (b) The department is prohibited from transferring legal or financial responsibility for any

1 routine maintenance, upkeep, and repairs to any other entity.

2 (c) The department shall establish a convenient way for recipients of photovoltaic solar
3 panel systems which were installed by the department under the solar jobs act to file requests with
4 the department for the department to perform routine maintenance, upkeep, and repairs. The
5 department shall investigate credible and reasonable requests for routine maintenance, upkeep, and
6 repairs promptly. If, upon investigation, the department determines that a photovoltaic solar panel
7 system is in need of routine maintenance, upkeep, and repairs, the department shall perform the
8 necessary routine maintenance, upkeep, and repairs promptly. The department is released from the
9 obligation to perform routine maintenance, upkeep, and repairs if the recipient of the solar panel
10 installation makes it unreasonably difficult to perform the routine maintenance, upkeep, and repairs,
11 including by refusing to allow agents, contractors, or employees of the department on the premises
12 or by failing to agree to a time during which the routine maintenance, upkeep, and repairs shall take
13 place.

14 **42-160.3-13. Legal ownership of the photovoltaic solar panel systems.**

15 (a) Once a photovoltaic solar panel system is installed on an applicant's housing unit, the
16 photovoltaic solar panel system is the property of the department.

17 (b) The department shall include in the solar installation contract:

18 (1) A provision prohibiting the applicant from selling, removing, deliberately damaging,
19 sabotaging, or dismantling the proposed solar installation; and

20 (2) Any additional restrictions on the ways in which the applicant may use or affect the
21 proposed solar installation that the director deems appropriate.

22 (c) If legal or equitable ownership of a housing unit building is transferred after a
23 photovoltaic solar panel system is already installed on it, pursuant to the solar jobs program, the
24 transferee automatically assumes all legal rights and duties with respect to the photovoltaic solar
25 panel system that were previously attached to the transferor.

26 **42-160.3-14. Net metering requirement.**

27 (a) The owner of a multifamily residence building which receives a photovoltaic solar panel
28 system installation, pursuant to the solar jobs program, shall enroll in the community net metering

4 in the case of a rental, the owner may, where it is reasonable to do so, condition permission for a
5 modification on the renter agreeing to restore the interior of the premises to the condition that
6 existed before the modification, reasonable wear and tear excepted. Where it is necessary in order
7 to ensure with reasonable certainty that funds will be available to pay for the restorations at the end
8 of the tenancy, the landlord may negotiate as part of the restoration agreement a provision requiring
9 that the tenant pay into an interest bearing escrow account, over a reasonable period, a reasonable

21 of this subsection, a "personal assistive animal" is an animal specifically trained by a certified
22 animal training program to assist a person with a disability to perform independent living tasks.

23 (f) Any housing accommodation of four (4) units or more constructed for first occupancy

14 requires a greater degree of accessibility to persons with disabilities.

15 (j) Nothing in this section requires that a dwelling be made available to an individual whose
16 tenancy would constitute a direct threat to the health or safety of other individuals or whose tenancy
17 would result in substantial physical damage to the property of others.

18 (k) Nothing contained in this chapter shall be construed to prohibit an owner, lessee,
19 sublessee, or assignee from advertising or selecting a person of the same or opposite gender to rent,
20 lease, or share the housing unit that the owner, lessee, sublessee, or assignee will occupy with the
21 person selected.

22 (l) No person shall aid, abet, incite, compel, or coerce the doing of any act declared by this
23 section to be an unlawful housing practice; or obstruct or prevent any person from complying with

29 organization governed by the provisions of title 19 or any other credit-granting commercial
30 institution; or respondent under this chapter; or any agent of these shall discriminate in any manner
31 against any individual because he or she has opposed any practice forbidden by this chapter, or
32 because he or she has made a charge, testified, or assisted in any manner in any investigation,
33 proceeding, or hearing under this chapter.

34 (n) Nothing in this section shall prevent a landlord from proceeding with eviction action

1 against a tenant who fails to comply with § 34-18-24(7).

9 **34-50-5. Enforcement.**

10 (a) Each day after September 1, 2023, in which a large building is not in compliance with

31 CHAPTER 141.1

32 THE PERCENTAGE OF INCOME HOME ENERGY AFFORDABILITY ACT

33 **42-141.1-1. Short title.**

34 This act shall be known and may be cited as "The Percentage of Income Home Energy

1 Affordability Act."

2 **42-141.1-2. Findings.**

3 (a) In recent years the federal government has reduced home energy assistance to low-
4 income households.

5 (b) Thousands of low-income Rhode Islanders lose access to heat or electricity, or both,
6 every year due to lack of affordable energy.

7 (c) Previous efforts to help low-income payers manage their arrears, while helpful, fail to
8 address the burgeoning need for greater energy assistance.

9 (d) Many other states have passed legislation to establish some form of rate-payer
10 assistance program to address rising demand for energy assistance.

11 **42-141.1-3. Definitions.**

12 As used in this chapter:

13 (1) "Commission" means the public utilities commission.

14 (2) "Cumulative Adjusted Gross Household Income" means the cumulative adjusted gross

21 including any grant of LIHEAP assistance, that is paid toward the cost of a consumer's home energy
22 electric and gas usage.

23 (6) "LIHEAP" means the federal Low Income Household Energy Assistance Program.

24 (7) "Participating agency" includes any community action program or other agency which
25 determines eligibility for LIHEAP benefits.

26 (8) "Percentage of income home energy affordability program" is an income-sensitive
27 tiered subsidy program that makes utility service affordable for low-income households. This type
28 of program is also known as a percentage of income payment plan (PIPP).

29 (9) "Residential customer" includes all private residences, whether occupied or vacant,
30 owned or rented, including single-family homes, multi-family housing units and mobile homes, but
31 not including school dormitories, hospitals, and military barracks.

32 (10) "Utility" means:

33 (i) An electric distribution company that distributes electricity to retail customers;

34 (ii) A gas distribution company that distributes natural gas to retail customers; or

1 (iii) A company that distributes both electricity and natural gas to retail customers.

2 **42-141.1-4. Program creation.**

3 As soon as practicable, and no later than December 31, 2021, the department of human
4 services shall create a program to be known as the "Percentage of Income Home Energy
5 Affordability Program" for the purpose of ensuring that utilities are affordable for low-income
6 households.

7 **42-141.1-5. Eligibility.**

8 Customers with a household income at or below three hundred percent (300%) of the
9 federal poverty level shall be eligible for the affordability subsidy program under this section.

10 **42-141.1-6. Program subsidy credits.**

11 (a) The DHS shall inform each utility of the subsidy credit for which each eligible
12 household is qualified.

13 (b) The amount of subsidy credit shall be that amount necessary to reduce the household's
14 home energy burden to an affordable percentage of income as defined in this section.

15 (c) The affordable home energy burden for each eligible household shall be determined as
16 follows:

17 (1) Each household that uses electricity as its primary source of heating shall pay not more
18 than two percent (2%) of its cumulative adjusted gross household income for the cost of electricity;

19 (2) Each household that uses gas for its primary source of heating shall pay not more than
20 one percent (1%) of its cumulative adjusted gross household income for the cost of gas;

21 (3) Each household that does not use electricity as its primary source of heating shall pay
22 not more than one percent (1%) of its cumulative adjusted gross household income for the cost of
23 electricity.

24 (d) The DHS may allocate additional subsidy credits as it deems appropriate for crisis
25 intervention.

26 (e) The DHS may allocate additional subsidy credits to reduce arrearages when needed to
27 bring home energy burdens to an affordable level.

28 (f) Utility companies shall provide a subsidy credit to customers' accounts, such that
29 eligible households pay only the amount of the affordable home energy burden as defined by § 42-
30 141.1-6. The DHS shall designate to utility companies the qualifying customer accounts and the
31 amounts to be credited to those customer accounts.

32 **42-141.1-7. Obligations of participants.**

33 Participating households shall report, within sixty (60) days, changes in income or financial

1 administrator in the DHS or in a participating agency.

2 **42-141.1-8. Arrearage.**

3 A household establishing one year of regular monthly payments under this chapter shall
4 not be required to pay any preexisting arrearage at the end of the one year period and that arrearage
5 shall be forgiven.

6 **42-141.1-9. Usage limit.**

7 (a) The DHS shall establish maximum usage limits for utility customers eligible for the
8 subsidy program based on such factors as household size, thermal integrity of the household
9 dwelling unit, and average household energy expenditure of a median income household.

10 (b) Under no circumstances may a maximum usage limit be set lower than two hundred
11 percent (200%) of the median Rhode Island household energy use.

12 (c) Energy usage exceeding the limits shall be billed at the prevailing consumer rate for
13 low-income consumers.

14 (d) Conservation may be rewarded with a reduction in the payment percentage required.

15 **42-141.1-10. Administration.**

16 (a) The DHS shall administer the program, including informing utility companies of
17 applicable subsidy credits, answering consumer inquiries, and keeping appropriate records.

18 (b) The DHS shall annually evaluate the impact of the percentage of income home energy
19 affordability act, including, but not limited to, an assessment of the number of eligible low-income
20 customers who participated in the percentage of income home energy affordability program.

21 **42-141.1-11. Severability.**

22 (a) If any provision of this chapter is held invalid, the remainder of this chapter shall not
23 be affected thereby.

24 (b) If the application of any provision of this chapter to any person or circumstance is held
25 invalid, the application of such provision to other persons or circumstances shall not be affected
26 thereby.
