AN ACT
RELATING TO EDUCATION -- MULTILINGUAL EDUCATORS INVESTMENT ACT

Introduced By: Representatives Morales, Caldwell, Sanchez, Potter, Giraldo, Felix, Henries, Speakman, Tanzi, and Cruz
Date Introduced: March 01, 2023
Referred To: House Finance

It is enacted by the General Assembly as follows:

SECTION 1. Findings of fact.
(1) The demographic divide between teachers and students is of growing public concern.
(2) Currently, multilingual students comprise twenty-seven percent (27%) of students in Rhode Island’s urban core student population and sixteen percent (16%) of Rhode Island’s statewide student population (Rhode Island Kids Count, 2022).
(3) Only two percent (2%) of multilingual learners are in enrolled in dual language programs and comprise a large portion of urban core and urban ring school students.
(5) A common explanation of why the demographic divide is so concerning is that multilingual students benefit most from instruction from teachers that are certified in dual language instruction.
(6) More students benefiting from dual language instruction may, in turn, translate into better academic outcomes such as student motivation, improved interest in academics, and grades.
(7) Multilingual educators represent excellent role models and provide a continuous source of inspiration for not only multilingual students, but all students.
(8) Linguistic separation and isolation can be countered through significant investment in multilingual educators that will deliver academic content through multiple languages.
(9) Students learn important societal lessons through the example of cooperative interracial and interethnic relationships among teachers.
(10) It is in the best interest of the state, its residents, and its students to develop and support
certified multilingual educators. The Rhode Island Blueprint for a Multilingual Learner Success (2021) calls for a nimble system that "Secures and allocates human and fiscal resources to support high-quality core instruction to meet the diverse needs of MLLs, including professional learning opportunities for all teachers and administrators."

(11) Support for increased preparation and training of bilingual/dual language and world language teachers can successfully be leveraged by providing direct financial support to Rhode Island college and the university of Rhode Island working to increase the number of certified bilingual/dual language and world language teachers.
