

1 payable.

2 (6) “Income interest” means the right of an income beneficiary to receive all or part of  
3 net income, whether the terms of the trust require it to be distributed or authorize it to be  
4 distributed in the trustee’s discretion.

5 (7) “Mandatory income interest” means the right of an income beneficiary to receive net  
6 income that the terms of the trust require the fiduciary to distribute.

7 (8) “Net income” means the total receipts allocated to income during an accounting  
8 period minus the disbursements made from income during the period, plus or minus transfers  
9 under this chapter or from income during the period.

10 (9) “Person” means an individual, corporation, business trust, estate, trust, partnership,  
11 limited liability company, association, joint venture, government; governmental subdivision,  
12 agency, or instrumentality; public corporation, or any other legal or commercial entity.

13 (10) “Principal” means property held in trust for distribution to a remainder beneficiary  
14 when the trust terminates.

15 (11) “Remainder beneficiary” means a person entitled to receive principal when an  
16 income interest ends.

17 (12) “Terms of a trust” means the manifestation of the intent of a settlor or decedent with  
18 respect to the trust, expressed in a manner that admits of its proof in a judicial proceeding,  
19 whether by written or spoken words or by conduct.

20 (13) “Trustee” includes an original, additional, or successor trustee, whether or not  
21 appointed or confirmed by a court.

22 **18-17-103. Fiduciary duties – General principles.** -- (a) In allocating receipts and  
23 disbursements to or between principal and income, and with respect to any matter within the  
24 scope of parts 2 and 3, a fiduciary:

25 (1) shall administer a trust or estate in accordance with the terms of the trust or the will,  
26 even if there is a different provision in this chapter;

27 (2) may administer a trust or estate by the exercise of a discretionary power of  
28 administration given to the fiduciary by the terms of the trust or the will, even if the exercise of  
29 the power produces a result different from a result required or permitted by this chapter;

30 (3) shall administer a trust or estate in accordance with this chapter if the terms of the  
31 trust or the will do not contain a different provision or do not give the fiduciary a discretionary  
32 power of administration; and

33 (4) shall add a receipt or charge a disbursement to principal to the extent that the terms of  
34 the trust and this chapter do not provide a rule for allocating the receipt or disbursement to or

1 between principal and income.

2 (b) In exercising the power to adjust under section 18-17-104(a) or a discretionary power  
3 of administration regarding a matter within the scope of this chapter, whether granted by the  
4 terms of a trust, a will, or this chapter, a fiduciary shall administer a trust or estate impartially,  
5 based on what is fair and reasonable to all of the beneficiaries, except to the extent that the terms  
6 of the trust or the will clearly manifest an intention that the fiduciary shall or may favor one or  
7 more of the beneficiaries. A determination in accordance with this chapter is presumed to be fair  
8 and reasonable to all of the beneficiaries.

9 **18-17-104. Trustee's power to adjust.** -- (a) A trustee may adjust between principal  
10 and income to the extent the trustee considers necessary if the trustee invests and manages trust  
11 assets as a prudent investor, the terms of the trust describe the amount that may or must be  
12 distributed to a beneficiary by referring to the trust's income, and the trustee determines, after  
13 applying the rules in section 18-17-103(a), that the trustee is unable to comply with section 18-  
14 17-103(b).

15 (b) In deciding whether and to what extent to exercise the power conferred by subsection  
16 (a), a trustee shall consider all factors relevant to the trust and its beneficiaries, including the  
17 following factors to the extent they are relevant:

18 (1) the nature, purpose, and expected duration of the trust;

19 (2) the intent of the settlor;

20 (3) the identity and circumstances of the beneficiaries;

21 (4) the needs for liquidity, regularity of income, and preservation and appreciation of  
22 capital;

23 (5) the assets held in the trust; the extent to which they consist of financial assets,  
24 interests in closely held enterprises, tangible and intangible personal property, or real property;  
25 the extent to which an asset is used by a beneficiary; and whether an asset was purchased by the  
26 trustee or received from the settlor;

27 (6) the net amount allocated to income under the other sections of this chapter and the  
28 increase or decrease in the value of the principal assets, which the trustee may estimate as to  
29 assets for which market values are not readily available;

30 (7) whether and to what extent the terms of the trust give the trustee the power to invade  
31 principal or accumulate income or prohibit the trustee from invading principal or accumulating  
32 income, and the extent to which the trustee has exercised a power from time to time to invade  
33 principal or accumulate income;

34 (8) the actual and anticipated effect of economic conditions on principal and income and

1 effects of inflation and deflation; and

2 (9) the anticipated tax consequences of an adjustment.

3 (c) A trustee may not make an adjustment:

4 (1) that diminishes the income interest in a trust that requires all of the income to be paid

5 at least annually to a surviving spouse and for which an estate tax or gift tax marital deduction

6 would be allowed, in whole or in part, if the trustee did not have the power to make the

7 adjustment;

8 (2) that reduces the actuarial value of the income interest in a trust to which a person

9 transfers property with the intent to qualify for a gift tax exclusion;

10 (3) that changes the amount payable to a beneficiary as a fixed annuity or a fixed fraction

11 of the value of the trust assets;

12 (4) from any amount that is permanently set aside for charitable purposes under a will or

13 the terms of a trust unless both income and principal are so set aside;

14 (5) if possessing or exercising the power to make an adjustment causes an individual to

15 be treated as the owner of all or part of the trust for income tax purposes, and the individual

16 would not be treated as the owner if the trustee did not possess the power to make an adjustment;

17 (6) if possessing or exercising the power to make an adjustment causes all or part of the

18 trust assets to be included for estate tax purposes in the estate of an individual who has the power

19 to remove a trustee or appoint a trustee, or both, and the assets would not be included in the estate

20 of the individual if the trustee did not possess the power to make an adjustment;

21 (7) if the trustee is a beneficiary of the trust; or

22 (8) if the trustee is not a beneficiary, but the adjustment would benefit the trustee directly

23 or indirectly.

24 (d) If subsection (c)(5), (6), (7), or (8) applies to a trustee and there is more than one

25 trustee, a co-trustee to whom the provision does not apply may make the adjustment unless the

26 exercise of the power by the remaining trustee or trustees is not permitted by the terms of the

27 trust.

28 (e) A trustee may release the entire power conferred by subsection (a) or may release

29 only the power to adjust from income to principal or the power to adjust from principal to income

30 if the trustee is uncertain about whether possessing or exercising the power will cause a result

31 described in subsection (c)(1) through (6) or (c)(8) or if the trustee determines that possessing or

32 exercising the power will or may deprive the trust of a tax benefit or impose a tax burden not

33 described in subsection (c). The release may be permanent or for a specified period, including a

34 period measured by the life of an individual.

1 (f) Terms of a trust that limit the power of a trustee to make an adjustment between  
2 principal and income do not affect the application of this section unless it is clear from the terms  
3 of the trust that the terms are intended to deny the trustee the power of adjustment conferred by  
4 subsection (a).

5 PART 2

6 DECEDENT'S ESTATE OR TERMINATING INCOME INTEREST

7 **18-17-201. Determination and distribution of net income.** -- After a decedent dies, in  
8 the case of an estate, or after an income interest in a trust ends, the following rules apply:

9 (1) A fiduciary of an estate or of a terminating income interest shall determine the  
10 amount of net income and net principal receipts received from property specifically given to a  
11 beneficiary under the rules in parts 3 through 5 of this chapter which apply to trustees and the  
12 rules in paragraph (5) herein. The fiduciary shall distribute the net income and net principal  
13 receipts to the beneficiary who is to receive the specific property.

14 (2) A fiduciary shall determine the remaining net income of a decedent's estate or a  
15 terminating income interest under the rules in parts 3 through 5 which apply to trustees and by:

16 (A) including in net income all income from property used to discharge liabilities;

17 (B) paying from income or principal, in the fiduciary's discretion, fees of attorneys,  
18 accountants, and fiduciaries; court costs and other expenses of administration; and interest on  
19 death taxes, but the fiduciary may pay those expenses from income of property passing to a trust  
20 for which the fiduciary claims an estate tax marital or charitable deduction only to the extent that  
21 the payment of those expenses from income will not cause the reduction or loss of the deduction;  
22 and

23 (C) paying from principal all other disbursements made or incurred in connection with  
24 the settlement of a decedent's estate or the winding up of a terminating income interest, including  
25 debts, funeral expenses, disposition of remains, family allowances, and death taxes and related  
26 penalties that are apportioned to the estate or terminating income interest by the will, the terms of  
27 the trust, or applicable law.

28 (3) A fiduciary shall distribute to a beneficiary who receives a pecuniary amount outright  
29 the interest or any other amount provided by the will, the terms of the trust, or applicable law  
30 from net income determined under paragraph (2) herein or from principal to the extent that net  
31 income is insufficient. If a beneficiary is to receive a pecuniary amount outright from a trust after  
32 an income interest ends and no interest or other amount is provided for by the terms of the trust or  
33 applicable law, the fiduciary shall distribute the interest or other amount to which the beneficiary  
34 would be entitled under applicable law if the pecuniary amount were required to be paid under a

1 will.

2 (4) A fiduciary shall distribute the net income remaining after distributions required by  
3 paragraph (3) herein in the manner described in section 18-17-202 to all other beneficiaries,  
4 including a beneficiary who receives a pecuniary amount in trust, even if the beneficiary holds an  
5 unqualified power to withdraw assets from the trust or other presently exercisable general power  
6 of appointment over the trust.

7 (5) A fiduciary may not reduce principal or income receipts from property described in  
8 paragraph (1) because of a payment described in sections 18-17-501 or 18-17-502 to the extent  
9 that the will, the terms of the trust, or applicable law requires the fiduciary to make the payment  
10 from assets other than the property or to the extent that the fiduciary recovers or expects to  
11 recover the payment from a third party. The net income and principal receipts from the property  
12 are determined by including all of the amounts the fiduciary receives or pays with respect to the  
13 property, whether those amounts accrued or became due before, on, or after the date of a  
14 decendent's death or an income interest's terminating event, and by making a reasonable provision  
15 for amounts that the fiduciary believes the estate or terminating income interest may become  
16 obligated to pay after the property is distributed.

17 **18-17-202. Distribution to residuary and remainder beneficiaries.** -- (a) Each  
18 beneficiary described in section 18-17-201(4) shall be entitled to receive a portion of the net  
19 income equal to the beneficiary's fractional interest in undistributed principal assets, using values  
20 as of the distribution date. If a fiduciary makes more than one distribution of assets to  
21 beneficiaries to whom this section applies, each beneficiary, including one who does not receive  
22 part of the distribution, is entitled, as of each distribution date, to the net income the fiduciary has  
23 received after the date of death or terminating event or earlier distribution date but has not  
24 distributed as of the current distribution date.

25 (b) In determining a beneficiary's share of net income, the following rules apply:

26 (1) The beneficiary shall be entitled to receive a portion of the net income equal to the  
27 beneficiary's fractional interest in the undistributed principal assets immediately before the  
28 distribution date, including assets that later may be sold to meet principal obligations.

29 (2) The beneficiary's fractional interest in the undistributed principal assets must be  
30 calculated without regard to property specifically given to a beneficiary and property required to  
31 pay pecuniary amounts not in trust.

32 (3) The beneficiary's fractional interest in the undistributed principal assets must be  
33 calculated on the basis of the aggregate value of those assets as of the distribution date without  
34 reducing the value by any unpaid principal obligation.

1 successive income interest.

2 (b) A trustee shall allocate an income receipt or disbursement to income if its due date  
3 occurs on or after the date on which a decedent dies or an income interest begins and it is a  
4 periodic due date. An income receipt or disbursement must be treated as accruing from day to  
5 day if its due date is not periodic or it has no due date. The portion of the receipt or disbursement  
6 accruing before the date on which a decedent dies or an income interest begins must be allocated  
7 to principal and the balance must be allocated to income.

8 (c) An item of income or an obligation is due on the date the payer is required to make a  
9 payment. If a payment date is not stated, there is no due date for the purposes of this chapter.  
10 Distributions to shareholders or other owners from an entity to which section 18-17-401 applies  
11 are deemed to be due on the date fixed by the entity for determining who is entitled to receive the  
12 distribution or, if no date is fixed, on the declaration date for the distribution. A due date is  
13 periodic for receipts or disbursements that must be paid at regular intervals under a lease or an  
14 obligation to pay interest or if an entity customarily makes distributions at regular intervals.

15 **18-17-303. Apportionment when income interest ends. -- (a) In this section,**  
16 **“undistributed income” means net income received before the date on which an income interest**  
17 **ends. The term does not include an item of income or expense that is due or accrued or net**  
18 **income that has been added or is required to be added to principal under the terms of the trust.**

19 (b) When a mandatory income interest ends, the trustee shall pay to a mandatory income  
20 beneficiary who survives that date, or the estate of a deceased mandatory income beneficiary  
21 whose death causes the interest to end, the beneficiary’s share of the undistributed income that is  
22 not disposed of under the terms of the trust unless the beneficiary has an unqualified power to  
23 revoke more than five percent (5%) of the trust immediately before the income interest ends. In  
24 the latter case, the undistributed income of the trust from the portion that may be revoked must be  
25 added to principal.

26 (c) When a trustee’s obligation to pay a fixed annuity or a fixed fraction of the value of  
27 the trust’s assets ends, the trustee shall prorate the final payment if and to the extent required by  
28 applicable law to accomplish a purpose of the trust or its settlor relating to income, gift, estate, or  
29 other tax requirements.

30 PART 4

31 ALLOCATION OF RECEIPTS DURING ADMINISTRATION OF TRUST

32 **18-17-401. Character of receipts. - - (a) In this section, “entity” means a corporation,**  
33 **partnership, limited liability company, regulated investment company, real estate investment**  
34 **trust, common trust fund, or any other organization in which a trustee has an interest other than a**

1 trust or estate to which the provisions of section 18-17-402 apply, a business or activity to which  
2 section 18-17-403 applies, or an asset-backed security to which the provisions of section 18-17-  
3 415 apply.

4 (b) Except as otherwise provided in this section, a trustee shall allocate to income money  
5 received from an entity.

6 (c) A trustee shall allocate the following receipts from an entity to principal:

7 (1) property other than money;

8 (2) money received in one distribution or a series of related distributions in exchange for  
9 part or all of a trust's interest in the entity;

10 (3) money received in total or partial liquidation of the entity; and

11 (4) money received from an entity that is a regulated investment company or a real estate  
12 investment trust if the money distributed is a capital gain dividend for federal income tax  
13 purposes.

14 (d) Money is received in partial liquidation:

15 (1) to the extent that the entity, at or near the time of a distribution, indicates that it is a  
16 distribution in partial liquidation; or

17 (2) if the total amount of money and property received in a distribution or series of  
18 related distributions is greater than twenty percent (20%) of the entity's gross assets, as shown by  
19 the entity's year-end financial statements immediately preceding the initial receipt.

20 (e) Money is not received in partial liquidation, nor may it be taken into account under  
21 subsection (d)(2), to the extent that it does not exceed the amount of income tax that a trustee or  
22 beneficiary must pay on taxable income of the entity that distributes the money.

23 (f) A trustee may rely upon a statement made by an entity about the source or character of  
24 a distribution if the statement is made at or near the time of distribution by the entity's board of  
25 directors or other person or group of persons authorized to exercise powers to pay money or  
26 transfer property comparable to those of a corporation's board of directors.

27 **18-17-402. Distribution from trust or estate.** – A trustee shall allocate to income an  
28 amount received as a distribution of income from a trust or an estate in which the trust has an  
29 interest other than a purchased interest, and shall allocate to principal an amount received as a  
30 distribution of principal from such a trust or estate. If a trustee purchases an interest in a trust that  
31 is an investment entity, or a decedent or donor transfers an interest in such a trust to a trustee,  
32 sections 18-17-401 or 18-17-415 applies to a receipt from the trust.

33 **18-17-403. Business and other activities conducted by trustee.** – (a) If a trustee who  
34 conducts a business or other activity determines that it is in the best interest of all the

1 beneficiaries to account separately for the business or activity instead of accounting for it as part  
2 of the trust's general accounting records, the trustee may maintain separate accounting records for  
3 its transactions, whether or not its assets are segregated from other trust assets.

4 (b) A trustee who accounts separately for a business or other activity may determine the  
5 extent to which its net cash receipts must be retained for working capital, the acquisition or  
6 replacement of fixed assets, and other reasonably foreseeable needs of the business or activity,  
7 and the extent to which the remaining net cash receipts are accounted for as principal or income  
8 in the trust's general accounting records. If a trustee sells assets of the business or other activity,  
9 other than in the ordinary course of the business or activity, the trustee shall account for the net  
10 amount received as principal in the trust's general accounting records to the extent the trustee  
11 determines that the amount received is no longer required in the conduct of business.

12 (c) Activities for which a trustee may maintain separate accounting records include:

13 (1) retail, manufacturing, service, and other traditional business activities;

14 (2) farming;

15 (3) raising and selling livestock and other animals;

16 (4) management of rental properties;

17 (5) extraction of minerals and other natural resources;

18 (6) timber operations; and

19 (7) activities to which section 18-17-414 applies.

#### 20 SUBPART 4-B

#### 21 RECEIPTS NOT NORMALLY APPORTIONED

22 **18-17-404. Principal receipts.** – A trustee shall allocate to principal:

23 (1) to the extent not allocated to income under this act, assets received from a transferor  
24 during the transferor's lifetime, a decedent's estate, a trust with a terminating income interest, or a  
25 payer under a contract naming the trust or its trustee as beneficiary;

26 (2) money or other property received from the sale, exchange, liquidation, or change in  
27 form of a principal asset, including realized profit, subject to this article;

28 (3) amounts recovered from third parties to reimburse the trust because of disbursements  
29 described in section 18-17-502(a)(7) or for other reasons to the extent not based on the loss of  
30 income;

31 (4) proceeds of property taken by eminent domain, but a separate award made for the loss  
32 of income with respect to an accounting period during which a current income beneficiary had a  
33 mandatory income interest is income;

1 (5) net income received in an accounting period during which there is no beneficiary to  
2 whom a trustee may or must distribute income; and

3 (6) other receipts as provided pursuant to the provisions of part 3 of this chapter.

4 **18-17-405. Rental property.** -- To the extent that a trustee accounts for receipts from  
5 rental property pursuant to this section, the trustee shall allocate to income an amount received as  
6 rent of real or personal property, including an amount received for cancellation or renewal of a  
7 lease. An amount received as a refundable deposit, including a security deposit or a deposit that  
8 is to be applied as rent for future periods, must be added to principal and held subject to the terms  
9 of the lease and is not available for distribution to a beneficiary until the trustee's contractual  
10 obligations have been satisfied with respect to that amount.

11 **18-17-406. Obligation to pay money.** -- (a) An amount received as interest, whether  
12 determined at a fixed, variable, or floating rate, on an obligation to pay money to the trustee,  
13 including an amount received as consideration for prepaying principal, must be allocated to  
14 income without any provision for amortization of premium.

15 (b) A trustee shall allocate to principal an amount received from the sale, redemption, or  
16 other disposition of an obligation to pay money to the trustee more than one year after it is  
17 purchased or acquired by the trustee, including an obligation whose purchase price or value when  
18 it is acquired is less than its value at maturity. If the obligation matures within one year after it is  
19 purchased or acquired by the trustee, an amount received in excess of its purchase price or its  
20 value when acquired by the trust must be allocated to income.

21 (c) This section does not apply to an obligation to which sections 18-17-409, 18-17-410,  
22 18-17-411, 18-17-412, 18-17-414, or 18-17-415 applies.

23 **18-17-407. Insurance policies and similar contracts.** -- (a) Except as otherwise  
24 provided in subsection (b), herein, a trustee shall allocate to principal the proceeds of a life  
25 insurance policy or other contract in which the trust or its trustee is named as beneficiary,  
26 including a contract that insures the trust or its trustee against loss for damage to, destruction of,  
27 or loss of title to a trust asset. The trustee shall allocate dividends on an insurance policy to  
28 income if the premiums on the policy are paid from income, and to principal if the premiums are  
29 paid from principal.

30 (b) A trustee shall allocate to income proceeds of a contract that insures the trustee  
31 against loss of occupancy or other use by an income beneficiary, loss of income, or, subject to  
32 section 18-17-403, loss of profits from a business.

33 (c) This section does not apply to a contract to which section 18-17-409 applies.

34 SUBPART 4-C

1 RECEIPTS NORMALLY APPORTIONED

2 **18-17-408. Insubstantial allocations not required.** -- If a trustee determines that an  
3 allocation between principal and income required by sections 18-17-409, 18-17-410, 18-17-411,  
4 18-17-412, or 18-17-415 is insubstantial, the trustee may allocate the entire amount to principal  
5 unless one of the circumstances described in section 18-17-104(c) applies to the allocation. This  
6 power may be exercised by a cotrustee in the circumstances described in section 18-17-104(d)  
7 and may be released for the reasons and in the manner described in section 18-17-104(e). An  
8 allocation is presumed to be insubstantial if:

9 (1) the amount of the allocation would increase or decrease net income in an accounting  
10 period, as determined before the allocation, by less than ten percent (10%) ; or

11 (2) the value of the asset producing the receipt for which the allocation would be made is  
12 less than ten percent (10%) of the total value of the trust's assets at the beginning of the  
13 accounting period.

14 **18-17-409. Deferred compensation, annuities, and similar payments.--** (a) In this  
15 section, "payment" means a payment that a trustee may receive over a fixed number of years or  
16 during the life of one or more individuals because of services rendered or property transferred to  
17 the payer in exchange for future payments. The term includes a payment made in money or  
18 property from the payer's general assets or from a separate fund created by the payer, including a  
19 private or commercial annuity, an individual retirement account, and a pension, profit-sharing,  
20 stock-bonus, or stock-ownership plan.

21 (b) To the extent that a payment is characterized as interest or a dividend or a payment  
22 made in lieu of interest or a dividend, a trustee shall allocate it to income. The trustee shall  
23 allocate to principal the balance of the payment and any other payment received in the same  
24 accounting period that is not characterized as interest, a dividend, or an equivalent payment.

25 (c) If no part of a payment is characterized as interest, a dividend, or an equivalent  
26 payment, and all or part of the payment is required to be made, a trustee shall allocate to income  
27 ten percent (10%) of the part that is required to be made during the accounting period and the  
28 balance to principal. If no part of a payment is required to be made or the payment received is the  
29 entire amount to which the trustee is entitled, the trustee shall allocate the entire payment to  
30 principal. For purposes of this subsection, a payment is not "required to be made" to the extent  
31 that it is made because the trustee exercises a right of withdrawal.

32 (d) If, to obtain an estate tax marital deduction for a trust, a trustee must allocate more of  
33 a payment to income than provided for by this section, the trustee shall allocate to income the  
34 additional amount necessary to obtain the marital deduction.

1 (e) This section does not apply to payments to which section 18-17-410 applies.

2 **18-17-410. Liquidating asset.** -- (a) In this section, “liquidating asset” means an asset  
3 whose value will diminish or terminate because the asset is expected to produce receipts for a  
4 period of limited duration. The term includes a leasehold, patent, copyright, royalty right, and  
5 right to receive payments during a period of more than one year under an arrangement that does  
6 not provide for the payment of interest on the unpaid balance. The term does not include a  
7 payment subject to section 18-17-409, resources subject to section 18-17-411, timber subject to  
8 section 18-17-412, an activity subject to section 18-17-414, an asset subject to section 18-17-415,  
9 or any asset for which the trustee establishes a reserve for depreciation under section 18-17-503.

10 (b) A trustee shall allocate to income ten percent (10%) of the receipts from a liquidating  
11 asset and the balance to principal.

12 **18-17-411. Minerals, water, and other natural resources.** -- (a) To the extent that a  
13 trustee accounts for receipts from an interest in minerals or other natural resources pursuant to  
14 this section, the trustee shall allocate them as follows:

15 (1) If received as nominal delay rental or nominal annual rent on a lease, a receipt must  
16 be allocated to income.

17 (2) If received from a production payment, a receipt must be allocated to income if and to  
18 the extent that the agreement creating the production payment provides a factor for interest or its  
19 equivalent. The balance must be allocated to principal.

20 (3) If an amount received as a royalty, shut-in-well payment, take-or-pay payment, bonus,  
21 or delay rental is more than nominal ninety percent (90%) must be allocated to principal and the  
22 balance to income.

23 (4) If an amount is received from a working interest or any other interest not provided for  
24 in paragraph (1), (2), or (3), ninety percent (90%) of the net amount received must be allocated to  
25 principal and the balance to income.

26 (b) An amount received on account of an interest in water that is renewable must be  
27 allocated to income. If the water is not renewable ninety percent (90%) of the amount must be  
28 allocated to principal and the balance to income.

29 (c) This chapter applies whether or not a decedent or donor was extracting minerals,  
30 water, or other natural resources before the interest became subject to the trust.

31 (d) If a trust owns an interest in minerals, water, or other natural resources on [the  
32 effective date of this chapter], the trustee may allocate receipts from the interest as provided in  
33 this chapter or in the manner used by the trustee before [the effective date of this chapter]. If the  
34 trust acquires an interest in minerals, water, or other natural resources after [the effective date of

1 this chapter], the trustee shall allocate receipts from the interest as provided in this chapter.

2 **18-17-412. Timber.** -- (a) To the extent that a trustee accounts for receipts from the sale  
3 of timber and related products pursuant to this section, the trustee shall allocate the net receipts:

4 (1) to income to the extent that the amount of timber removed from the land does not  
5 exceed the rate of growth of the timber during the accounting periods in which a beneficiary has a  
6 mandatory income interest;

7 (2) to principal to the extent that the amount of timber removed from the land exceeds the  
8 rate of growth of the timber or the net receipts are from the sale of standing timber;

9 (3) to or between income and principal if the net receipts are from the lease of timberland  
10 or from a contract to cut timber from land owned by a trust, by determining the amount of timber  
11 removed from the land under the lease or contract and applying the rules in paragraphs (1) and  
12 (2); or

13 (4) to principal to the extent that advance payments, bonuses, and other payments are not  
14 allocated pursuant to paragraph (1), (2), or (3).

15 (b) In determining net receipts to be allocated pursuant to subsection (a), a trustee shall  
16 deduct and transfer to principal a reasonable amount for depletion.

17 (c) This chapter applies whether or not a decedent or transferor was harvesting timber  
18 from the property before it became subject to the trust.

19 (d) If a trust owns an interest in timberland on the effective date of this chapter, the  
20 trustee may allocate net receipts from the sale of timber and related products as provided in this  
21 chapter or in the manner used by the trustee before the effective date of this chapter. If the trust  
22 acquires an interest in timberland after the effective date of this chapter, the trustee shall allocate  
23 net receipts from the sale of timber and related products as provided in this chapter.

24 **18-17-413. Property not productive of income.** -- (a) If a marital deduction is allowed  
25 for all or part of a trust whose assets consist substantially of property that does not provide the  
26 surviving spouse with sufficient income from or use of the trust assets, and if the amounts that the  
27 trustee transfers from principal to income under section 18-17-104 and distributes to the spouse  
28 from principal pursuant to the terms of the trust are insufficient to provide the spouse with the  
29 beneficial enjoyment required to obtain the marital deduction, the spouse may require the trustee  
30 to make property productive of income, convert property within a reasonable time, or exercise the  
31 power conferred by section 18-17-104(a). The trustee may decide which action or combination  
32 of actions to take.

33 (b) In cases not governed by subsection (a) herein, proceeds from the sale or other  
34 disposition of an asset are principal without regard to the amount of income the asset produces

1 during any accounting period.

2 **18-17-414. Derivatives and options.** -- (a) In this section, “derivative” means a contract  
3 or financial instrument or a combination of contracts and financial instruments which gives a trust  
4 the right or obligation to participate in some or all changes in the price of a tangible or intangible  
5 asset or group of assets, or changes in a rate, an index of prices or rates, or other market indicator  
6 for an asset or a group of assets.

7 (b) To the extent that a trustee does not account under section 18-17-403 for transactions  
8 in derivatives, the trustee shall allocate to principal receipts from and disbursements made in  
9 connection with those transactions.

10 (c) If a trustee grants an option to buy property from the trust, whether or not the trust  
11 owns the property when the option is granted, grants an option that permits another person to sell  
12 property to the trust, or acquires an option to buy property for the trust or an option to sell an  
13 asset owned by the trust, and the trustee or other owner of the asset is required to deliver the asset  
14 if the option is exercised, an amount received for granting the option must be allocated to  
15 principal. An amount paid to acquire the option must be paid from principal. A gain or loss  
16 realized upon the exercise of an option, including an option granted to a settlor of the trust for  
17 services rendered, must be allocated to principal.

18 **18-17-415. Asset-backed securities.** -- (a) In this section, “asset-backed security” means  
19 an asset whose value is based upon the right it gives the owner to receive distributions from the  
20 proceeds of financial assets that provide collateral for the security. The term includes an asset  
21 that gives the owner the right to receive from the collateral financial assets only the interest or  
22 other current return or only the proceeds other than interest or current return. The term does not  
23 include an asset to which sections 18-17-401 or 18-17-409 applies.

24 (b) If a trust receives a payment from interest or other current return and from other  
25 proceeds of the collateral financial assets, the trustee shall allocate to income the portion of the  
26 payment which the payer identifies as being from interest or other current return and shall  
27 allocate the balance of the payment to principal.

28 (c) If a trust receives one or more payments in exchange for the trust’s entire interest in  
29 an asset-backed security in one accounting period, the trustee shall allocate the payments to  
30 principal. If a payment is one of a series of payments that will result in the liquidation of the  
31 trust’s interest in the security over more than one accounting period, the trustee shall allocate ten  
32 percent (10%) of the payment to income and the balance to principal.

33 PART 5

34 ALLOCATION OF DISBURSEMENTS DURING

1 ADMINISTRATION OF TRUST

2 **18-17-501. Disbursements from income.** -- A trustee shall make the following  
3 disbursements from income to the extent that they are not disbursements to which sections 18-17-  
4 201(2)(B) or (C) applies:

5 (1) one-half (1/2) of the regular compensation of the trustee and of any person providing  
6 investment advisory or custodial services to the trustee;

7 (2) one-half (1/2) of all expenses for accountings, judicial proceedings, or other matters  
8 that involve both the income and remainder interests;

9 (3) all of the other ordinary expenses incurred in connection with the administration,  
10 management, or preservation of trust property and the distribution of income, including interest,  
11 ordinary repairs, regularly recurring taxes assessed against principal, and expenses of a  
12 proceeding or other matter that concerns primarily the income interest; and

13 (4) recurring premiums on insurance covering the loss of a principal asset or the loss of  
14 income from or use of the asset.

15 **18-17-502. Disbursements from principal.** -- (a) A trustee shall make the following  
16 disbursements from principal:

17 (1) the remaining one-half (1/2) of the disbursements described in sections 18-17-501 (1)  
18 and (2);

19 (2) all of the trustee's compensation calculated on principal as a fee for acceptance,  
20 distribution or termination, and disbursements made to prepare property for sale;

21 (3) payments on the principal of a trust debt;

22 (4) expenses of a proceeding that concerns primarily principal, including a proceeding to  
23 construe the trust or to protect the trust or its property;

24 (5) premiums paid on a policy of insurance not described in section 18-17-501(4) of  
25 which the trust is the owner and beneficiary;

26 (6) estate, inheritance, and other transfer taxes, including penalties, apportioned to the  
27 trust; and

28 (7) disbursements related to environmental matters, including reclamation, assessing  
29 environmental conditions, remedying and removing environmental contamination, monitoring  
30 remedial activities and the release of substances, preventing future releases of substances,  
31 collecting amounts from persons liable or potentially liable for the costs of those activities,  
32 penalties imposed under environmental laws or regulations and other payments made to comply  
33 with those laws or regulations statutory or common law claims by third parties, and defending  
34 claims based on environmental matters.

1 (b) If a principal asset is encumbered with an obligation that requires income from that  
2 asset to be paid directly to the creditor, the trustee shall transfer from principal to income an  
3 amount equal to the income paid to the creditor in reduction of the principal balance of the  
4 obligation.

5 **18-17-503. Transfers from income to principal for depreciation.** -- (a) In this  
6 section, “depreciation” means a reduction in value due to wear, tear, decay, corrosion, or gradual  
7 obsolescence of a fixed asset having a useful life of more than one year.

8 (b) A trustee may transfer to principal a reasonable amount of the net cash receipts from  
9 a principal asset that is subject to depreciation, but may not transfer any amount for depreciation:

10 (1) of that portion of real property used or available for use by a beneficiary as a  
11 residence or of tangible personal property held or made available for the personal use or  
12 enjoyment of a beneficiary;

13 (2) during the administration of a decedent’s estate; or

14 (3) under this section if the trustee is accounting under section 18-17-403 for the business  
15 or activity in which the asset is used.

16 (c) An amount transferred to principal need not be held as a separate fund.

17 **18-17-504. Transfers from income to reimburse principal.** -- (a) If a trustee makes or  
18 expects to make a principal disbursement described in this section, the trustee may transfer an  
19 appropriate amount from income to principal in one or more accounting periods to reimburse  
20 principal or to provide a reserve for future principal disbursements.

21 (b) Principal disbursements to which subsection (a) herein applies include the following,  
22 but only to the extent that the trustee has not been and does not expect to be reimbursed by a third  
23 party:

24 (1) an amount chargeable to income but paid from principal because it is unusually large,  
25 including extraordinary repairs;

26 (2) a capital improvement to a principal asset, whether in the form of changes to an  
27 existing asset or the construction of a new asset, including special assessments;

28 (3) disbursements made to prepare property for rental, including tenant allowances,  
29 leasehold improvements, and broker’s commissions;

30 (4) periodic payments on an obligation secured by a principal asset to the extent that the  
31 amount transferred from income to principal for depreciation is less than the periodic payments;

32 and

33 (5) disbursements described in section 18-17-502(a)(7).

34 (c) If the asset whose ownership gives rise to the disbursements becomes subject to a

1 successive income interest after an income interest ends, a trustee may continue to transfer  
2 amounts from income to principal as provided in subsection (a) herein.

3 **18-17-505. Income taxes.** – (a) A tax required to be paid by a trustee based on receipts  
4 allocated to income must be paid from income.

5 (b) A tax required to be paid by a trustee based on receipts allocated to principal must be  
6 paid from principal, even if the tax is called an income tax by the taxing authority.

7 (c) A tax required to be paid by a trustee on the trust’s share of an entity’s taxable  
8 income must be paid proportionately:

9 (1) from income to the extent that receipts from the entity are allocated to income; and

10 (2) from principal to the extent that:

11 (i) receipts from the entity are allocated to principal; and

12 (ii) the trust’s share of the entity’s taxable income exceeds the total receipts described in  
13 paragraphs (1) and (2)(i) herein.

14 (d) For purposes of this section, receipts allocated to principal or income must be  
15 reduced by the amount distributed to a beneficiary from principal or income for which the trust  
16 receives a deduction in calculating the tax.

17 **18-17-506. Adjustments between principal and income because of taxes.** -- (a) A  
18 fiduciary may make adjustments between principal and income to offset the shifting of economic  
19 interests or tax benefits between income beneficiaries and remainder beneficiaries which arise  
20 from:

21 (1) elections and decisions, other than those described in subsection (b), that the  
22 fiduciary makes from time to time regarding tax matters;

23 (2) an income tax or any other tax that is imposed upon the fiduciary or a beneficiary as  
24 a result of a transaction involving or a distribution from the estate or trust; or

25 (3) the ownership by an estate or trust of an interest in an entity whose taxable income,  
26 whether or not distributed, is includable in the taxable income of the estate trust, or beneficiary.

27 (b) If the amount of an estate tax marital deduction or charitable contribution deduction  
28 is reduced because a fiduciary deducts an amount paid from principal for income tax purposes  
29 instead of deducting it for estate tax purposes, and as a result estate taxes paid from principal are  
30 increased and income taxes paid by an estate, trust, or beneficiary are decreased, each estate,  
31 trust, or beneficiary that benefits from the decrease in income tax shall reimburse the principal  
32 from which the increase in estate tax is paid. The total reimbursement must equal the increase in  
33 the estate tax to the extent that the principal used to pay the increase would have qualified for a  
34 marital deduction or charitable contribution deduction but for the payment. The proportionate

1 share of the reimbursement for each estate, trust, or beneficiary whose income taxes are reduced  
2 must be the same as its proportionate share of the total decrease in income tax. An estate or trust  
3 shall reimburse principal from income.

4 PART 6

5 MISCELLANEOUS PROVISIONS

6 **18-17-601. Uniformity of application and construction.** -- In applying and construing  
7 this uniform act, consideration must be given to the need to promote uniformity of the law with  
8 respect to its subject matter among states that enact it.

9 **18-17-602. Severability clause.** -- If any provision of the chapter or its application to  
10 any person or circumstance is held invalid, the invalidity does not affect other provisions or  
11 applications of the chapter which can be given effect without the invalid provision or application,  
12 and to this end the provisions of this chapter are severable.

13 **18-17-603. Application of chapter to existing trusts and estates.** -- This chapter  
14 applies to every trust or decedent's estate existing on the effective date of this chapter except as  
15 otherwise expressly provided in the will or terms of the trust or the provisions of this chapter.

16 SECTION 2. This act shall take effect upon passage.
