STATE OF RHODE ISLAND

IN GENERAL ASSEMBLY

JANUARY SESSION, A.D. 2012

—————
A N A C T

RELATING TO REDISTRICTING OF THE GENERAL ASSEMBLY

Introduced By: Senators McCaffrey, Bates, Lanzi, Pichardo, and Goodwin

Date Introduced: January 19, 2012

Referred To: Senate Judiciary

It is enacted by the General Assembly as follows:

1 SECTION 1. Section 22-1-2 of the General Laws in Chapter 22-1 entitled "Composition
2 of Senate" is hereby amended to read as follows:

3 **22-1-2. Districts.** -- The state is hereby divided into thirty-eight (38) senatorial districts
4 bounded and described as follows:

5 (1) It is understood and intended that for the purpose of this section a line described as
6 running on, along, to or through any street (including road, avenue, lane, way, parkway,
7 expressway, divided highway, state route or interstate route, or trail), stream or river, is intended
8 to mean the center line of that street, stream or river, [and a line described as the shoreline is](#)
9 [intended to mean the line along the mean low water level, and a feature extension is intended to](#)
10 [mean the imaginary straight-line extension from the end of a map feature, usually a street or road,](#)
11 [to another feature, as for example, from the end of a dead-end street to a nearby river,](#) in all
12 instances, unless it shall be otherwise specified.

13 (2) It is further understood and intended that for the purpose of this section, the districts
14 described in this section shall be composed of United States census geography (tracts and blocks),
15 as defined by the ~~2000~~ [2010](#) version of the "TIGER" files from the United States Census Bureau,
16 whose boundaries correspond to the below metes and bounds set forth in this section and which
17 are hereby made a part of this chapter. A listing of which census blocks are contained within each
18 district shall be deemed to be incorporated by reference.

19 (3) (i) It is further understood and intended that for the purpose of this section, the

1 districts will be depicted on thirty-nine (39) maps, compiled by Election Data Services, Inc. for
2 each city and town, and hereinafter may be referred to as town maps.

3 (ii) The secretary of state shall keep a copy of each set of the foregoing maps and a copy
4 of the census tract and block listing available for inspection during ordinary business hours at his
5 or her office. The secretary of state shall furnish each city and town a copy of the town map
6 covering that particular city or town within ten (10) days from the passage of this act.

7 (iii) For purposes of this title, references to "tract" or "CT" shall mean "census tract", as
8 that demographic unit is established by the United States Bureau of the Census for the ~~2000~~ [2010](#)
9 census as described by maps and publications of the bureau. References to "block", "blocks", [or](#)
10 "block groups", ~~"enumeration district", or "enumeration districts"~~, refer to those demographic
11 units as established by the United States Census Bureau for the ~~2000~~ [2010](#) census as described by
12 maps and publications of the bureau.

13 (iv) Any reference to a "city or town", "city or town boundaries", or "city or town limits"
14 shall refer to the boundaries or limits of the particular city or town ~~as they existed on January 1,~~
15 ~~2000~~ [as defined by the 2010 version of the "TIGER" files from the United States Census Bureau.](#)

16 (v) In the census tract and block listing, the first two (2) digits of a census description
17 shall refer to the state of Rhode Island (44), the next three (3) digits of a census description shall
18 refer to the county in which the district lies. Bristol county carries the code 001; Kent county
19 carries the code 003; Newport county carries the code 005; Providence county carries the code
20 007 and Washington county carries the code 009. The next six (6) digits refer to the census tract
21 within the county set forth in the description. The last four (4) digits refer to the census block
22 within the census tract. "TIGER" is an acronym for the computer readable geographic data base
23 that automates the mapping and related geographic activities required to support the United
24 States' Census Bureau's census and survey programs and stands for "Topologically Integrated
25 Geographic Encoding and Referencing."

26 (vi) If any census tract, block, block group, or enumeration district is omitted, listed
27 more than once, or is only partially provided for, it is intended that the districts be defined in such
28 a manner as to not omit any area of Rhode Island from a district and to comply with the standard
29 of Articles VII and VIII of the Rhode Island Constitution requiring that districts be reasonably
30 equal. In order to carry out the intent of the general assembly as expressed in this section the
31 secretary of state, shall if necessary, undertake measures to insure compliance with this section.

32 (vii) In the event of a discrepancy between the metes and bounds description, the
33 description of census tracts and blocks, and the maps which shall be on file with the secretary of
34 state, then the listing of census tracts and blocks shall take precedence and be controlling.

3 SECTION 2. Section 22-2-2 of the General Laws in Chapter 22-2 entitled "Composition
4 of House of Representatives" is hereby amended to read as follows:

5 **22-2-2. Districts.** -- The state is hereby divided into seventy-five (75) representative
6 districts bounded and described as follows:

7 (1) It is understood and intended that for the purpose of this section a line described as
8 running on, along, to or through any street (including road, avenue, lane, way, parkway,
9 expressway, divided Highway, state route or interstate route, or trail), stream or river, is intended
10 to mean the centerline of that street, stream or river, and a line described as the shoreline is
11 intended to mean the line along the mean low water level, and a feature extension is intended to
12 mean the imaginary straight-line extension from the end of a map feature, usually a street or road,
13 to another feature as for example, from the end of a dead-end street to a nearby river, in all
14 instances, unless the same shall be otherwise specified.

15 (2) It is further understood and intended that for the purpose of this section, the districts
16 described in this section shall be composed of United States census geography (tracts and blocks),
17 as defined by the ~~2000~~ 2010 version of the "TIGER" files from the United States Census Bureau,
18 whose boundaries correspond to the below metes and bounds set forth in this section and hereby
19 made a part of this chapter. A listing of which census blocks are contained within each district
20 shall be deemed to be incorporated by reference.

21 (3) (i) It is further understood and intended that for the purpose of this section, the
22 districts will be depicted on thirty-nine (39) maps, compiled by Election Data Services, Inc. for
23 each city and town, and hereinafter may be referred to as town maps.

24 (ii) The secretary of state shall keep a copy of each set of the foregoing maps and a copy
25 of the census tract and block listing available for inspection during ordinary business hours at his
26 or her office. The secretary of state shall furnish each city and town a copy of the town map
27 covering that particular city or town within ten (10) days from the date of passage of this act
28 ~~[February 20, 2002].~~

29 (iii) For purposes of this title, references to "tract" or "CT" shall mean "census tract", as
30 that demographic unit is established by the United States Bureau of the Census for the ~~2000~~ 2010
31 census as described by maps and publications of the bureau. References to "block", "blocks", or
32 "block groups", ~~"enumeration district", or "enumeration districts",~~ refer to those demographic
33 units as established by the United States Census Bureau for the ~~2000~~ 2010 census as described by
34 maps and publications of the bureau.

1 (iv) Any reference to a "city or town", "city or town boundaries", or "city or town limits"
2 shall refer to the boundaries or limits of the particular city or town ~~as they existed on January 1,~~
3 ~~2000~~ as defined by the 2010 version of the "TIGER" files from the United States Census Bureau.

4 (v) In the census tract and block listing, the first two (2) digits of a census description
5 shall refer to the state of Rhode Island (44), the next three (3) digits of a census description shall
6 refer to the county in which the district lies. Bristol county carries the code 001; Kent county
7 carries the code 003; Newport county carries the code 005; Providence county carries the code
8 007 and Washington county carries the code 009. The next six (6) digits refer to the census tract
9 within the county set forth in the description. The last four (4) digits refer to the census block
10 within the census tract. "TIGER" is an acronym for the computer readable geographic data base
11 that automates the mapping and related geographic activities required to support the United
12 States' Census Bureau's census and survey programs and stands for "Topologically Integrated
13 Geographic Encoding and Referencing."

14 (vi) If any census tract, block, block group, or enumeration district is omitted, listed
15 more than once, or is only partially provided for, it is intended that the districts be defined in such
16 a manner as to not omit any area of Rhode Island from a district and to comply with the standard
17 of Articles VII and VIII of the Rhode Island Constitution requiring that districts be reasonably
18 equal. In order to carry out the intent of the general assembly as expressed in this section the
19 secretary of state, shall if necessary, undertake measures to insure compliance with this section.

20 (vii) In the event of a discrepancy between the metes and bounds description, the
21 description by census tracts and blocks, and the maps which shall be on file with the secretary of
22 state, then the listing of census tracts and blocks shall take precedence and be controlling.

32 SECTION 4. The senatorial committees of the senatorial districts and the district
33 committees of the representative districts in office on the effective date of this act shall not
34 thereafter exercise any powers of nomination or endorsement of candidates for senator or

1 representative, except for an election for senator or representative prior to the first Tuesday after
2 the first Monday in November, 2012, but the chairperson of the state committee of each political
3 party, forthwith upon passage of this act shall appoint the members of a senatorial district
4 committee for each senatorial district and the members of a representative district committee for
5 each representative district. Each of said senatorial district committees shall consist of five (5)
6 members except that in senatorial districts which include all or parts of two (2) or more cities or
7 towns, the committee shall consist of seven (7) members. Each of said representative district
8 committees shall consist of three (3) members, except that in representative districts which
9 include all or parts of two (2) or more cities and towns, the committee shall consist of five (5)
10 members. Such district committee members, so appointed, shall hold office until the primary
11 elections in 2012 and thereafter until their successors shall have been duly elected, qualified and
12 organized. Nothing herein contained shall be construed to vacate the office or terminate the term
13 of office of any state committee member of any party prior to the party primary election in
14 September, 2012.

15 SECTION 5. Whenever in the general laws or in any public law a duty is imposed upon
16 the president of a town council or upon the local board of any city or town or upon a town clerk,
17 town sergeant or constable in connection with the election of a senator or representative, such
18 duty in the case of a senatorial or representative district comprising parts or the whole of more
19 than one town shall be deemed to be imposed upon the president of the town council or local
20 board or town clerk, town sergeant or constable of each or all of the towns in which such
21 senatorial or representative district shall lie. Wherever in the general laws or in any public law a
22 duty is imposed upon the city committee, town committee, or ward committee of a political party
23 in connection with the election of a senator or representative, such duty shall be deemed to be
24 imposed upon the senatorial or representative district committee of the party as the context shall
25 require.

26 SECTION 6. Wherever in the general laws or in any public law reference is made to a
27 senator or representative from any city or town, or to the election of a senator or representative
28 from any city or town, such reference shall mean and be deemed to refer to a senator or
29 representative from a senatorial or representative district, or the election of a senator or
30 representative from a senatorial or representative district, as the context may require.

31 SECTION 7. This act shall be liberally construed to effectuate the purposes thereof and
32 to apportion the state into senatorial or representative districts in compliance with the
33 requirements of the United States Constitution. It is intended that the senatorial or representative
34 districts described herein completely encompass all the area within the state and contain all the

1 population residing in the state. It is further intended that the apportionment and districting
2 provided for in this act results in the creation of districts containing substantially equal
3 population. It is also intended that no senatorial or representative district shall include any of the
4 area included within the description of any other senatorial or representative district. If the
5 districts described in this act do not carry out the purposes thereof because of patent unintentional
6 omissions, duplications, overlapping area, erroneous nomenclature, faulty description of
7 boundary lines, street closings, changes in names of streets or of public places, alteration of the
8 courses of rivers or streams, the filling in of lands under water or changes in shorelines due to
9 accretion, the secretary of state is hereby authorized and empowered to correct such omissions,
10 overlaps, erroneous nomenclature, or other defects in the description of districts so as to
11 accomplish the purposes and objectives of this act. In making such corrections, the secretary of
12 state shall be guided by the following standards:

13 (1) Gaps in the description of any district shall be completed in a manner which results in
14 a total description of the district in manner consonant with the description of adjacent districts;

15 (2) Areas included within the descriptions of more than one district shall be allocated to
16 the district having the lowest population; and

17 (3) Areas not included within the descriptions of any district shall be allocated to the
18 adjacent district having the lowest population.

19 SECTION 8. This act shall take effect upon passage; provided, however, that the
20 provisions hereof shall first be effective in connection with elections to be held on or subsequent
21 to the first day of September, 2012, and for the purpose of greater clarity, the first election under
22 the provisions of this act for congress, senator and representative from each of the senatorial,
23 congressional or representative districts hereby created, shall be held on the Tuesday next after
24 the first Monday in November, 2012, and the first primary election under the provisions of this
25 act for nomination of candidates for congress, senate and for representative from each of said
26 representative district shall be held on the second Tuesday after the first Monday in September,
27 2012, provided, however, that if any provision of this act or the application of such provision to
28 any person or under any circumstances shall be held unconstitutional or otherwise invalid or
29 inoperative by a decision of any court of competent jurisdiction, or if any action performed or to
30 be performed under any provision of this act is restrained or enjoined by any court of competent
31 jurisdiction, the remaining provisions of this act shall not be deemed to be impaired or affected
32 thereby but shall be deemed to remain in full force and effect. Any primary or special election
33 held prior to the first day of September, 2012, shall be conducted under the laws as they existed
34 prior to the passage of this act.

1 SECTION 9. This act shall take effect upon passage.

EXPLANATION
BY THE LEGISLATIVE COUNCIL
OF
A N A C T
RELATING TO REDISTRICTING OF THE GENERAL ASSEMBLY

1 This act would set forth the boundaries of the voting districts for the House of
2 Representatives and the Senate. The act would also set forth the territory for the First and Second
3 Congressional Districts in Rhode Island.

4 This act would take effect upon its passage; provided, however, that the provisions hereof
5 would first be effective in connection with elections to be held on or subsequent to the first day of
6 September, 2012, and for the purpose of greater clarity, the first election under the provisions of
7 this act for congress, senator and representative from each of the congressional, senatorial, or
8 representative districts hereby created, would be held on the Tuesday next after the first Monday
9 in November, 2012, and the first primary election under the provisions of this act for nomination
10 of candidates for congress, senator and for representative from each of said representative district
11 would be held on the second Tuesday after the first Monday in September, 2012, provided,
12 however, that if any provision of this act or the application of such provision to any person or
13 under any circumstances would be held unconstitutional or otherwise invalid or inoperative by a
14 decision of any court of competent jurisdiction, or if any action performed or to be performed
15 under any provision of this act is restrained or enjoined by any court of competent jurisdiction,
16 the remaining provisions of this act would not be deemed to be impaired or affected thereby but
17 would be deemed to remain in full force and effect. Any primary or special election held prior to
18 the first day of September, 2012, would be conducted under the laws as they existed prior to the
19 passage of this act.
