It is enacted by the General Assembly as follows:

SECTION 1. Chapter 35-4 of the General Laws entitled "State Funds" is hereby amended by adding thereto the following sections:

35-4-11.1. Rhode Island transportation infrastructure fund -- Creation --

Allocations to fund. -- (a) There is hereby created a restricted receipt account within the Rhode Island intermodal surface transportation fund established in § 35-4-11, to be known as the Rhode Island transportation infrastructure fund or transportation infrastructure fund. Unexpended balances remaining in the Rhode Island transportation infrastructure fund shall not be subject to the ten percent (10%) indirect charge.

(b) Commencing with the start of FY 2015, and continuing for five (5) additional consecutive fiscal years thereafter until FY 2020, pursuant to the ninety-seven percent (97%) limitation on state spending contained in Article IX, Section 16 of the constitution of the state of Rhode Island, one quarter of one percent (0.25%) of the state's annual appropriation shall be allocated and deposited into the transportation infrastructure fund every fiscal year, until the total amount of the annual allocation is equal to one and one-half percent (1.5%) of the state's total appropriation, at which point the one and one-half percent (1.5%) rate shall remain in place until further action of the general assembly. Such deposit shall be deemed to be in compliance with the ninety-seven percent (97%) limitation within said Article IX, Section 16.

(c) From FY 2015 through to and including FY 2018, an amount equivalent to the value
of all Rhode Island department of transportation debt, which is being assumed by the state and
covered through appropriations from the general fund, shall be subtracted from the motor fuel tax
provided for in chapter 36 of title 31 and deposited into the Rhode Island transportation
infrastructure fund. Beginning in FY 2019, and annually thereafter, forty-five million dollars
($45,000,000) of the Rhode Island department of transportation’s motor fuel tax allocation which
was previously used for debt service, shall be deposited into the Rhode Island transportation
infrastructure fund. This amount shall be in addition to the amount appropriated pursuant to
subsection (b).

(d) Commencing with FY 2015, and ending at the conclusion of FY 2019, a five percent
(5%) surcharge shall be assessed on all fees collected by the division of motor vehicles. Funds
collected from such surcharge shall be deposited into the Rhode Island transportation
infrastructure fund. This amount shall be in addition to the amount appropriated pursuant to
subsection (b).

35-4-11.2. Appropriations to support fund – Use of bonds to initially support fund. -
(a) The general assembly shall annually make appropriations from the general fund to the Rhode
Island transportation infrastructure fund to address any shortfalls in revenue from the reduction or
elimination of any tolls on any of the four (4) bridges in the East Bay Bridge system, specifically
the Mt. Hope Bridge, the Newport or Newport-Pell Bridge, the Jamestown Verrazzano Bridge,
and the Sakonnet River Bridge, as appropriate. Such appropriations shall be in addition to the
amount appropriated pursuant to § 35-4-11.1.

(b) Upon its inception, and up until the Rhode Island transportation infrastructure fund is
appropriately funded as determined by the general assembly, general obligation bonds shall be
proposed to the voters to support the fund in accomplishing its objectives. The initial general
obligation bond proposals shall be submitted to the voters at the general election to be held in
November, 2014.

SECTION 2. Section 35-3-20.1 of the General Laws in Chapter 35-3 entitled “State
Budget” is hereby amended to read as follows:

35-3-20.1. Limitation on state spending. -- (a) For the fiscal year ending June 30, 2009,
no appropriation, supplemental appropriation, or budget act shall cause the aggregate state
general revenue appropriations enacted for the fiscal year to exceed ninety-seven and eight tenths
of one percent (97.8%) of the estimated state general revenues for the fiscal year from all sources,
including estimated unencumbered general revenues not continued or reappropriated to the new
fiscal year remaining at the end of the previous fiscal year. Estimated unencumbered general
revenues are calculated by taking the estimated general revenue cash balance at the end of the
fiscal year less estimated revenue anticipation bonds or notes, estimated general revenue
encumbrances, estimated continuing general revenue appropriations, and the amount of the
budget reserve and cash stabilization account at the end of the fiscal year. The amount of the
general revenue estimate and estimated unencumbered general revenue remaining shall be
determined by the state controller and approved by the auditor general in conformance with
accounting procedures currently in use. The excess of any unencumbered general revenue shall be
determined by subtracting from the actual unencumbered general revenues at the end of any fiscal
year an amount which together with the latest estimated general revenues is necessary to fund the
ensuing fiscal year's general revenue budget, including the required estimated general revenue
supplemental and annual appropriations. Provided further, the applicable percentage shall
decrease by two-tenths of one percent (.2%) for the succeeding four (4) fiscal years as follows:

<table>
<thead>
<tr>
<th>Fiscal Year</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fiscal year ending June 30, 2010</td>
<td>97.6%</td>
</tr>
<tr>
<td>Fiscal year ending June 30, 2011</td>
<td>97.4%</td>
</tr>
<tr>
<td>Fiscal year ending June 30, 2012</td>
<td>97.2%</td>
</tr>
<tr>
<td>Fiscal years ending June 30, 2013 and thereafter</td>
<td>97.0%</td>
</tr>
</tbody>
</table>

(b) The amount between the applicable percentage in subsection (a) and one hundred percent (100%) of the estimated state general fund revenue for any fiscal year as estimated in
accordance with subsection (a) shall be appropriated in any given fiscal year into the budget
reserve and cash stabilization account; provided, that for the fiscal year ending June 30, 2009, no
payment will be made which would increase the total of the budget reserve and cash stabilization
account to more than three and four-tenths of one percent (3.4%) of only the estimated state
general fund revenues as set by subsection (a). In the event that the payment to be made into the
budget reserve and cash stabilization account would increase the amount in the account to more
than three and four-tenths of one percent (3.4%) of estimated state general revenues, the amount
shall be transferred to the Rhode Island Capital Plan fund, to be used solely for capital projects.
Provided further the applicable percentage shall increase by four-tenths of one percent (.4%) for
the four (4) succeeding fiscal years as follows:

<table>
<thead>
<tr>
<th>Fiscal Year</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fiscal year ending June 30, 2010</td>
<td>3.8%</td>
</tr>
<tr>
<td>Fiscal year ending June 30, 2011</td>
<td>4.2%</td>
</tr>
<tr>
<td>Fiscal year ending June 30, 2012</td>
<td>4.6%</td>
</tr>
<tr>
<td>Fiscal years ending June 30, 2013 and thereafter</td>
<td>5.0%</td>
</tr>
</tbody>
</table>

However, there shall be no expenditures of money under this section without passage of a
specific appropriation by the general assembly. (c) Within forty-five (45) days after the close of
any fiscal year, all unencumbered general revenue in the year end surplus account from the fiscal
year shall be transferred to the general fund.

(d) Commencing with the start of FY 2015, and continuing for the four (4) additional years thereafter until FY 2019, the general assembly shall reallocate the equivalent of one tenth of one percent (.1%) of general revenues from the Rhode Island capital plan fund to the Rhode Island public transit authority. In each successive fiscal year after FY 2015 and continuing up to and including FY 2019, the amount of this reallocation shall be increased by one tenth of one percent (.1%) until it reaches the amount of one-half of one percent (0.5%) in FY 2010.
