EXPLANATION
BY THE LEGISLATIVE COUNCIL
OF
A N A C T
RELATING TO HEALTH AND SAFETY -- HOSPITAL CHARGES

1 This act would require all Rhode Island hospitals to annually compile a list of the range
2 of average charges for the twenty-five (25) most commonly performed outpatient and inpatient
3 procedures and to submit these lists to the department of health. These lists would be made public
4 by the department of health. It would also require a hospital, upon the request of a prospective
5 patient with no health coverage, to provide that person with a written estimate of the amount the
6 hospital will require that person to pay for those reasonably expected health care services,
7 procedures and supplies. Finally, it would require the hospital to provide information about its
8 financial assistance and charity care policies to its patients upon request.

9 This act would take effect upon passage.
