EXPLANATION
BY THE LEGISLATIVE COUNCIL
OF
A N A C T
RELATING TO ANIMALS AND ANIMAL HUSBANDRY - ANIMAL DISEASES IN
GENERAL

1 This act would allow the director of environmental management to appoint one or more
2 inspectors in the state rather than a commissioner in each county to inquire into the condition of
3 any domestic animal. It would be the duty of the inspector to visit and inquire into the condition
4 of any domestic animal where there is any suspicion of infection or tuberculosis or other
5 contagious or communicable disease either to that animal or carcass of that animal or to the
6 tissues or products of that animal. This act would also authorize the inspector to restrict the
7 movement of any tissue or product produced by any domestic animal.

8 This act would take effect upon passage.
