4 SECTION 2. Sections 11-9-13.3, 11-9-13.4, 11-9-13.5, 11-9-13.6, 11-9-13.7, 11-9-13.8,
5 11-9-13.11 and 11-9-13.13 of the General Laws in Chapter 11-9 entitled "Children" are hereby
6 amended to read as follows:

7 **11-9-13.3. Legislative intent -- Purpose.**

8 The use of tobacco and nicotine products by Rhode Island children and youth is a ~~health~~
9 ~~and substance abuse problem of the utmost severity. The legislature finds that tobacco product~~
10 ~~usage by children in Rhode Island is rampant and increasing with over thirty percent (30%) of~~
11 ~~high school students smoking. The present law prohibiting the sale of tobacco to children is being~~
12 ~~ignored by many retailers. Rhode Island tobacco retailers illegally sell four million eight hundred~~
13 ~~thousand (4,800,000) packs, over eleven million dollars (\$11,000,000) in tobacco product sales,~~
14 ~~to children annually. Tobacco industry advertising targets children as the replacement smokers~~
15 ~~for the one thousand one hundred forty five (1,145) adults who die daily from tobacco product~~
16 ~~usage. Approximately seventy percent (70%) of the Rhode Island high school seniors who are~~
17 ~~smoking today will be the addicted adult smokers of tomorrow. According to the federal Centers~~
18 ~~for Disease Control and Prevention (CDC), smoking related direct medical costs in Rhode Island~~
19 ~~in 1990 climbed to one hundred eighty six million dollars (\$186,000,000). This is an ongoing,~~
20 ~~escalating financial burden borne by every business, large and small, and every person, smoker~~
21 ~~and nonsmoker, in Rhode Island. This is a health and economic drain created by each new~~
22 ~~generation of children who begin using tobacco products and become addicted to nicotine. It is~~
23 ~~the intent of this legislation to preserve and protect the health of children by: (1) stopping the~~
24 ~~illegal sale of tobacco to children, and (2) by severely punishing those who disregard the laws~~
25 ~~relating to the illegal sale of tobacco products to children.~~ serious health and addiction problem.
26 Cigarette use has greatly declined among Rhode Island youth, to four and eight-tenths percent
27 (4.8%), but as the National Youth Tobacco Survey reports, in 2015, the overall use of tobacco
28 among youth rose, exposing dangerous new trends. Clever marketing by the tobacco industry,
29 encouraging the use of small cigars, hookahs, e-cigarettes, and flavored vaping products, has put
30 millions of young people at risk of lifelong lethal nicotine addiction. Every year, four hundred
31 (400) children under the age of eighteen (18) in Rhode Island become daily smokers. There are
32 sixteen thousand (16,000) children in Rhode Island today who will ultimately die prematurely
33 from smoking. Rhode Island's annual health care costs due to smoking are six hundred forty
34 million dollars (\$640,000,000). Data shows that approximately ninety-five percent (95%) of adult

1 smokers began smoking before they turned age twenty-one (21). In March of 2015, the Institute
2 of Medicine, on behalf of the Food and Drug Administration (FDA), released a seminal report
3 detailing the potential public health benefits of raising the national legal age of tobacco sale from
4 the age of eighteen (18) to the age twenty-one (21). In July 2015, the CDC reported that seventy-
5 five percent (75%) of adults favored raising the tobacco sale age to twenty-one (21) years.
6 Among the findings was a twenty-five percent (25%) drop in the rate of smoking initiation by
7 fifteen (15) to seventeen (17) year olds, a twelve percent (12%) drop in overall smoking rates
8 over time, and sixteen thousand (16,000) cases of preterm birth and low birth weight averted in
9 the first five (5) years of the policy, an impact that would be recognized immediately. A
10 conservative estimate is that if age twenty-one (21) were adopted throughout the United States
11 now, it would prevent four million two hundred thousand (4,200,000) years of lives lost to
12 smoking for those born in the years 2000-2019, who would otherwise die prematurely from
13 smoking.
