34 a manufacturer within a city or town within this state if that person uses any premises, room, or

1 place in it primarily for the purpose of transforming raw materials into a finished product for trade
2 through any or all of the following operations: adapting, altering, finishing, making, and

4 commercial operation by selling electricity at retail or taking title to generating facilities on or after
5 July 1, 1997; building and construction contractors; warehousing operations, including distribution
6 bases or outlets of out-of-state manufacturers; and fabricating processes incidental to warehousing
7 or distribution of raw materials, such as alteration of stock for the convenience of a customer; are
8 excluded from this definition;

9 (ii) For the purposes of this section and §§ 44-4-10 and 44-5-38, the term "manufacturer's
10 inventory," or any similar term, means and includes the manufacturer's raw materials, the
11 manufacturer's work in process, and finished products manufactured by the manufacturer in this
12 state, and not sold, leased, or traded by the manufacturer or its title or right to possession divested;
13 provided, that the term does not include any finished products held by the manufacturer in any retail
14 store or other similar selling place operated by the manufacturer whether or not the retail
15 establishment is located in the same building in which the manufacturer operates the manufacturing
16 plant;

17 (iii) For the purpose of § 44-11-2, a "manufacturer" is a person whose principal business
18 in this state consists of transforming raw materials into a finished product for trade through any or
19 all of the operations described in paragraph (i) of this subdivision. A person will be deemed to be
20 principally engaged if the gross receipts that person derived from the manufacturing operations in
21 this state during the calendar year or fiscal year mentioned in § 44-11-1 amounted to more than
22 fifty percent (50%) of the total gross receipts that person derived from all the business activities in
23 which that person engaged in this state during the taxable year. For the purpose of computing the
24 percentage, gross receipts derived by a manufacturer from the sale, lease, or rental of finished
25 products manufactured by the manufacturer in this state, even though the manufacturer's store or
26 other selling place may be at a different location from the location of the manufacturer's
27 manufacturing plant in this state, are deemed to have been derived from manufacturing;

28 (iv) Within the meaning of the preceding paragraphs of this subdivision, the term
29 "manufacturer" also includes persons who are principally engaged in any of the general activities
30 coded and listed as establishments engaged in manufacturing in the Standard Industrial
31 Classification Manual prepared by the Technical Committee on Industrial Classification, Office of
32 Statistical Standards, Executive Office of the President, United States Bureau of the Budget, as
33 revised from time to time, but eliminating as manufacturers those persons, who, because of their
34 limited type of manufacturing activities, are classified in the manual as falling within the trade

1 rather than an industrial classification of manufacturers. Among those thus eliminated, and
2 accordingly also excluded as manufacturers within the meaning of this paragraph, are persons
3 primarily engaged in selling, to the general public, products produced on the premises from which
4 they are sold, such as neighborhood bakeries, candy stores, ice cream parlors, shade shops, and
5 custom tailors, except, that a person who manufactures bakery products for sale primarily for home
6 delivery, or through one or more non-baking retail outlets, and whether or not retail outlets are
7 operated by the person, is a manufacturer within the meaning of this paragraph;

8 (v) The term "Person" means and includes, as appropriate, a person, partnership, or
9 corporation; and

10 (vi) The department of revenue shall provide to the local assessors any assistance that is
11 necessary in determining the proper application of the definitions in this subdivision;

12 (21) Real and tangible personal property acquired to provide a treatment facility used
13 primarily to control the pollution or contamination of the waters or the air of the state, as defined
14 in chapter 12 of title 46 and chapter 25 of title 23, respectively, the facility having been constructed,
15 reconstructed, erected, installed, or acquired in furtherance of federal or state requirements or
16 standards for the control of water or air pollution or contamination, and certified as approved in an
17 order entered by the director of environmental management. The property is exempt as long as it is
18 operated properly in compliance with the order of approval of the director of environmental
19 management; provided, that any grant of the exemption by the director of environmental
20 management in excess of ten (10) years is approved by the city or town in which the property is
21 situated. This provision applies only to water and air pollution control properties and facilities
22 installed for the treatment of waste waters and air contaminants resulting from industrial
23 processing; furthermore, it applies only to water or air pollution control properties and facilities
24 placed in operation for the first time after April 13, 1970;

25 (22) New manufacturing machinery and equipment acquired or used by a manufacturer and
26 purchased after December 31, 1974. Manufacturing machinery and equipment is defined as:

27 (i) Machinery and equipment used exclusively in the actual manufacture or conversion of
28 raw materials or goods in the process of manufacture by a manufacturer, as defined in subdivision
29 (20), and machinery, fixtures, and equipment used exclusively by a manufacturer for research and
30 development or for quality assurance of its manufactured products;

31 (ii) Machinery and equipment that is partially used in the actual manufacture or conversion
32 of raw materials or goods in process of manufacture by a manufacturer, as defined in subdivision
33 (20), and machinery, fixtures, and equipment used by a manufacturer for research and development
34 or for quality assurance of its manufactured products, to the extent to which the machinery and

1 equipment is used for the manufacturing processes, research and development, or quality assurance.
2 In the instances where machinery and equipment is used in both manufacturing and/or research and
3 development and/or quality assurance activities and non-manufacturing activities, the assessment
4 on machinery and equipment is prorated by applying the percentage of usage of the equipment for
5 the manufacturing, research and development, and quality-assurance activity to the value of the
6 machinery and equipment for purposes of taxation, and the portion of the value used for
7 manufacturing, research and development, and quality assurance is exempt from taxation. The
8 burden of demonstrating this percentage usage of machinery and equipment for manufacturing and
9 for research and development and/or quality assurance of its manufactured products rests with the
10 manufacturer; and

11 (iii) Machinery and equipment described in §§ 44-18-30(7) and 44-18-30(22) that was
12 purchased after July 1, 1997; provided that the city or town council of the city or town in which the
13 machinery and equipment is located adopts an ordinance exempting the machinery and equipment
14 from taxation. For purposes of this subsection, city councils and town councils of any municipality
15 may, by ordinance, wholly or partially exempt from taxation the machinery and equipment
16 discussed in this subsection for the period of time established in the ordinance and may, by
17 ordinance, establish the procedures for taxpayers to avail themselves of the benefit of any
18 exemption permitted under this section; provided, that the ordinance does not apply to any
19 machinery or equipment of a business, subsidiary, or any affiliated business that locates or relocates
20 from a city or town in this state to another city or town in the state;

21 (23) Precious metal bullion, meaning any elementary metal that has been put through a
22 process of melting or refining, and that is in a state or condition that its value depends upon its
23 content and not its form. The term does not include fabricated precious metal that has been
24 processed or manufactured for some one or more specific and customary industrial, professional,
25 or artistic uses;

26 (24) Hydroelectric power-generation equipment, which includes, but is not limited to,
27 turbines, generators, switchgear, controls, monitoring equipment, circuit breakers, transformers,
28 protective relaying, bus bars, cables, connections, trash racks, headgates, and conduits. The
29 hydroelectric power-generation equipment must have been purchased after July 1, 1979, and
30 acquired or used by a person or corporation who or that owns or leases a dam and utilizes the
31 equipment to generate hydroelectric power;

32 (25) Subject to authorization by formal action of the council of any city or town, any real
33 or personal property owned by, held in trust for, or leased to an organization incorporated under
34 chapter 6 of title 7, as amended, or an organization meeting the definition of "charitable trust" set

1 out in § 18-9-4, as amended, or an organization incorporated under the not-for-profits statutes of

4 for the purposes of the organization;

5 (26) Tangible personal property, the primary function of which is the recycling, reuse, or
6 recovery of materials (other than precious metals, as defined in § 44-18-30(24)(ii) and (iii)), from,
7 or the treatment of "hazardous wastes," as defined in § 23-19.1-4, where the "hazardous wastes"
8 are generated primarily by the same taxpayer and where the personal property is located at, in, or
9 adjacent to a generating facility of the taxpayer. The taxpayer may, but need not, procure an order
10 from the director of the department of environmental management certifying that the tangible
11 personal property has this function, which order effects a conclusive presumption that the tangible
12 personal property qualifies for the exemption under this subdivision. If any information relating to
13 secret processes or methods of manufacture, production, or treatment is disclosed to the department
14 of environmental management only to procure an order, and is a "trade secret" as defined in § 28-
15 21-10(b), it shall not be open to public inspection or publicly disclosed unless disclosure is
16 otherwise required under chapter 21 of title 28 or chapter 24.4 of title 23;
