It is enacted by the General Assembly as follows:

SECTION 1. The general assembly makes the following findings of fact:

(1) The general assembly finds that on January 30, 2020, the World Health Organization designated the novel coronavirus, COVID-19, outbreak as a public health emergency of international concern.

(2) On January 31, 2020 the Rhode Island department of health (department) establish an incident command system response to COVID-19.

(3) On January 31, 2020, United States Health and Human Services Secretary Alex M. Azar II declared a public health emergency for the United States.

(4) On March 9, 2020, the governor of the state of Rhode Island issued a declaration of emergency and over the course of several months issued numerous continuations of that declaration of emergency.

(5) The declaration of emergency ordered the closure of businesses, parks, limitations of social gatherings, to name just few temporary and sometimes permanent effects of the scourge of COVID-19.

(6) Through scientific research of unprecedented magnitude, the United States government finally approved vaccines in late 2020.

(7) Despite the long awaited vaccine, the legislature finds and acknowledges that Covid-
19 originated in live markets in the country of China and that the existence of live markets presents
a risk to citizens of the United States and elsewhere.

SECTION 2. Chapter 21-27 of the General Laws entitled "Sanitation in Food
Establishments" is hereby amended by adding thereto the following section:

21-27-13. Prohibition on live markets and food establishment slaughter for customer
consumption.

Notwithstanding any other provision of law to the contrary, the department of health and
any other licensing authorities of the state or any municipality shall not issue a new license to any

not already in existence, or the slaughter of any animals as defined in § 21-11-1, or of any poultry
subject to the provisions of chapter 13 of title 21, for the sale or delivery to the customer on the
