LC001925

## 2023 -- S 0172

## STATE OF RHODE ISLAND

#### **IN GENERAL ASSEMBLY**

#### JANUARY SESSION, A.D. 2023

## AN ACT

# RELATING TO PUBLIC UTILITIES AND CARRIERS -- DUTIES OF UTILITIES AND CARRIERS

Introduced By: Senators Rogers, DeLuca, and Paolino Date Introduced: February 16, 2023 Referred To: Senate Commerce

It is enacted by the General Assembly as follows:

SECTION 1. Section 39-2-1.2 of the General Laws in Chapter 39-2 entitled "Duties of
 Utilities and Carriers" is hereby amended to read as follows:

3

## <u>39-2-1.2. Utility base rate — Advertising, demand-side management, and renewables.</u>

(a) In addition to costs prohibited in § 39-1-27.4(b), no public utility distributing or 4 5 providing heat, electricity, or water to or for the public shall include as part of its base rate any expenses for advertising, either direct or indirect, that promotes the use of its product or service, or 6 is designed to promote the public image of the industry. No public utility may furnish support of 7 any kind, direct or indirect, to any subsidiary, group, association, or individual for advertising and 8 9 include the expense as part of its base rate. Nothing contained in this section shall be deemed as 10 prohibiting the inclusion in the base rate of expenses incurred for advertising, informational or 11 educational in nature, that is designed to promote public safety conservation of the public utility's 12 product or service. The public utilities commission shall promulgate such rules and regulations as are necessary to require public disclosure of all advertising expenses of any kind, direct or indirect, 13 14 and to otherwise effectuate the provisions of this section.

(b) Effective as of January 1, 2008, and for a period of twenty (20) years thereafter, each electric distribution company shall include a charge per kilowatt-hour delivered to fund demandside management programs. The 0.3 mills per kilowatt-hour delivered to fund renewable energy programs shall remain in effect until December 31, 2028. The electric distribution company shall

1 establish and, after July 1, 2007, maintain, two (2) separate accounts, one for demand-side 2 management programs (the "demand-side account"), which shall be funded by the electric demand-3 side charge and administered and implemented by the distribution company, subject to the 4 regulatory reviewing authority of the commission, and one for renewable energy programs, which 5 shall be administered by the Rhode Island commerce corporation pursuant to § 42-64-13.2 and shall be held and disbursed by the distribution company as directed by the Rhode Island commerce 6 7 corporation for the purposes of developing, promoting, and supporting renewable energy programs.

8 During the time periods established in this subsection, the commission may, in its 9 discretion, after notice and public hearing, increase the sums for demand-side management and 10 renewable resources. In addition, the commission shall, after notice and public hearing, determine 11 the appropriate charge for these programs. The office of energy resources, and/or the administrator 12 of the renewable energy programs, may seek to secure for the state an equitable and reasonable 13 portion of renewable energy credits or certificates created by private projects funded through those 14 programs. As used in this section, "renewable energy resources" shall mean: (1) Power generation 15 technologies, as defined in § 39-26-5, "eligible renewable energy resources," including off-grid 16 and on-grid generating technologies located in Rhode Island, as a priority; (2) Research and 17 development activities in Rhode Island pertaining to eligible renewable energy resources and to 18 other renewable energy technologies for electrical generation; or (3) Projects and activities directly 19 related to implementing eligible renewable energy resources projects in Rhode Island. 20 Technologies for converting solar energy for space heating or generating domestic hot water may 21 also be funded through the renewable energy programs. Fuel cells may be considered an energy 22 efficiency technology to be included in demand-side management programs. Special rates for low-23 income customers in effect as of August 7, 1996, shall be continued, and the costs of all of these 24 discounts shall be included in the distribution rates charged to all other customers. Nothing in this 25 section shall be construed as prohibiting an electric distribution company from offering any special 26 rates or programs for low-income customers which are not in effect as of August 7, 1996, subject 27 to the approval by the commission.

28

(1) The renewable energy investment programs shall be administered pursuant to rules 29 established by the Rhode Island commerce corporation. Said rules shall provide transparent criteria 30 to rank qualified renewable energy projects, giving consideration to:

31

(i) The feasibility of project completion;

32 (ii) The anticipated amount of renewable energy the project will produce;

33 (iii) The potential of the project to mitigate energy costs over the life of the project; and

34 (iv) The estimated cost per kilowatt-hour (KWh) of the energy produced from the project. 1

#### (c) [Deleted by P.L. 2012, ch. 241, art. 4, § 14.]

2 (d) The chief executive officer of the commerce corporation is authorized and may enter 3 into a contract with a contractor for the cost-effective administration of the renewable energy 4 programs funded by this section. A competitive bid and contract award for administration of the 5 renewable energy programs may occur every three (3) years and shall include, as a condition, that 6 after July 1, 2008, the account for the renewable energy programs shall be maintained and 7 administered by the commerce corporation as provided for in subsection (b) of this section.

8 (e) Effective January 1, 2007, and for a period of twenty-one (21) years thereafter, each 9 gas distribution company shall include, with the approval of the commission, a charge per deca 10 therm delivered to fund demand-side management programs (the "gas demand-side charge"), 11 including, but not limited to, programs for cost-effective energy efficiency, energy conservation, 12 combined heat and power systems, and weatherization services for low-income households.

(f) Each gas company shall establish a separate account for demand-side management programs (the "gas demand-side account") that shall be funded by the gas demand-side charge and administered and implemented by the distribution company, subject to the regulatory reviewing authority of the commission. The commission may establish administrative mechanisms and procedures that are similar to those for electric demand-side management programs administered under the jurisdiction of the commission and that are designed to achieve cost-effectiveness and high, life-time savings of efficiency measures supported by the program.

(g) The commission may, if reasonable and feasible, except from this demand-side
 management charge:

22

(1) Gas used for distribution generation; and

(2) Gas used for the manufacturing processes, where the customer has established a selfdirected program to invest in and achieve best-effective energy efficiency in accordance with a plan
approved by the commission and subject to periodic review and approval by the commission, which
plan shall require annual reporting of the amount invested and the return on investments in terms
of gas savings.

(h) The commission may provide for the coordinated and/or integrated administration of electric and gas demand-side management programs in order to enhance the effectiveness of the programs. Such coordinated and/or integrated administration may after March 1, 2009, upon the recommendation of the office of energy resources, be through one or more third-party entities designated by the commission pursuant to a competitive selection process.

(i) Effective January 1, 2007, the commission shall allocate, from demand-side
 management gas and electric funds authorized pursuant to this section, an amount not to exceed

three percent (3%) of such funds on an annual basis for the retention of expert consultants, and reasonable administration costs of the energy efficiency and resources management council associated with planning, management, and evaluation of energy-efficiency programs, renewable energy programs, system reliability least-cost procurement, and with regulatory proceedings, contested cases, and other actions pertaining to the purposes, powers, and duties of the council, which allocation may by mutual agreement, be used in coordination with the office of energy resources to support such activities.

8 (j) Effective January 1, 2016, the commission shall annually allocate from the administrative funding amount allocated in subsection (i) from the demand-side management 9 10 program as described in subsection (i) as follows: forty percent (40%) for the purposes identified 11 in subsection (i) and sixty percent (60%) annually to the office of energy resources for activities 12 associated with planning, management, and evaluation of energy-efficiency programs, renewable 13 energy programs, system reliability, least-cost procurement, and with regulatory proceedings, 14 contested cases, and other actions pertaining to the purposes, powers, and duties of the office of 15 energy resources.

16 (k) On April 15, of each year, the office and the council shall submit to the governor, the 17 president of the senate, and the speaker of the house of representatives, separate financial and 18 performance reports regarding the demand-side management programs, including the specific level 19 of funds that were contributed by the residential, municipal, and commercial and industrial sectors 20 to the overall programs; the businesses, vendors, and institutions that received funding from 21 demand-side management gas and electric funds used for the purposes in this section; and the 22 businesses, vendors, and institutions that received the administrative funds for the purposes in 23 subsections (i) and (j). These reports shall be posted electronically on the websites of the office of 24 energy resources and the energy efficiency and resources management council.

(*l*) On or after August 1, 2015, at the request of the Rhode Island infrastructure bank, each
electric distribution company, except for the Pascoag Utility District and Block Island Power
Company, shall remit two percent (2%) of the amount of the 2014 electric demand-side charge
collections to the Rhode Island infrastructure bank.

(m) On or after August 1, 2015, at the request of the Rhode Island infrastructure bank, each
gas distribution company shall remit two percent (2%) of the amount of the 2014 gas demand-side
charge collections to the Rhode Island infrastructure bank.

(n) Effective January 1, 2022, the commission shall allocate, from demand-side
 management gas and electric funds authorized pursuant to this section, five million dollars
 (\$5,000,000) of such funds on an annual basis to the Rhode Island infrastructure bank. Gas and

electric demand-side funds transferred to the Rhode Island infrastructure bank pursuant to this section shall be eligible to be used in any energy efficiency, renewable energy, or demand-side management project financing program administered by the Rhode Island infrastructure bank notwithstanding any other restrictions on the use of such collections set forth in this chapter. The infrastructure bank shall report annually to the commission within ninety (90) days of the end of each calendar year how collections transferred under this section were utilized.

- 7 (o) Effective July 1, 2023, the commission may defer or suspend any and all fees or charges
- 8 collected for demand-side management or renewables. The commission shall notify the governor,
- 9 speaker of the house and the senate president of the commission's final determination to suspend
- 10 or defer any of the fees or charges under this section and the anticipated cost and programmatic
- 11 impact. A suspension or deferral is only effective for the rate period approved by the commission
- 12 and expires on the date the approved rate period ends.
- 13 SECTION 2. This act shall take effect upon passage.

#### **EXPLANATION**

## BY THE LEGISLATIVE COUNCIL

## OF

## AN ACT

# RELATING TO PUBLIC UTILITIES AND CARRIERS -- DUTIES OF UTILITIES AND CARRIERS

\*\*\*

1 This act would allow the commission to defer or suspend any fees or charges collected for 2 demand-side management or renewables on or after July 1, 2023. The commission would notify 3 the governor, speaker of the house, and the senate president of the commission's decision to suspend 4 any fees or charges under this section with the suspended or deferred fees or charges to expire on 5 the date the approved rate period ends. 6 This act would take effect upon passage.
