STATE OF RHODE ISLAND

IN GENERAL ASSEMBLY

JANUARY SESSION, A.D. 2009

A N A C T

RELATING TO FISH AND WILDLIFE

Introduced By: Representatives Kilmartin, M Rice, Gallison, Naughton, and Malik

Date Introduced: May 28, 2009

Referred To: House Finance

It is enacted by the General Assembly as follows:

1 SECTION 1. Title 20 of the General Laws entitled "FISH AND WILDLIFE" is hereby
2 amended by adding thereto the following chapter:

3 CHAPTER 2.2

4 RECREATIONAL SALTWATER FISHING LICENSE

5 **20-2.2-1 Findings.** -- The general assembly finds and declares:

6 (1) The constitution of the state places plenary authority and responsibility in the general
7 assembly to provide for the conservation of the natural resources of the state, including its marine
8 fisheries;

9 (2) The state of Rhode Island has historically established programs to provide for and
10 regulate the harvesting and taking of marine fish for recreational purposes;

11 (3) The federal government and regional entities have established and continue to
12 establish regulatory programs, management measures, quotas, and other restrictions that affect
13 persons engaged in marine recreational fisheries in Rhode Island, and Rhode Island functions in
14 whole or in part in the context of federal and regional programs, depending on the fishery;

15 (4) The regulatory programs, management measures, quotas, and other restrictions
16 governing marine recreational fisheries are based primarily on catch and effort statistics from
17 recreational fisherman, and on fishery resource assessments, which gauge the biological status of
18 fish stocks;

19 (5) Since 1979, recreational fishing assessments have been derived from the marine

1 recreational fisheries statistics Survey (MRFSS), administered by the federal government in
2 partnership with the states;

3 (6) In 2006, congress acknowledged major flaws in the accuracy of the assessments
4 provided by (MRFSS), and called upon the national marine fisheries service (NMFS) to
5 undertake programmatic reforms, including the establishment of a universal registry of all
6 saltwater anglers to provide a more accurate and efficient means for acquiring recreational catch
7 and effort data;

8 (7) In 2008, (NMFS) initiated a new marine recreational information program (MRIP) to
9 replace (MRFSS), and enacted rules requiring marine recreational fisherman to either register
10 under a new national program, or be registered or licensed by a state program that meets federal
11 requirements;

12 (8) All coastal states have enacted, or are in the process of enacting, marine recreational
13 fishing license or registry programs;

14 (9) The interests of recreational saltwater anglers in Rhode Island can best be met by
15 establishing a state program that meets federal requirements, contributes to improved state-based
16 recreational fishing assessments and stock assessments, and supports fair and effective regulatory
17 programs and quota allocations for Rhode Island's marine recreational fisheries;

18 (10) Additionally, the interests of recreational saltwater anglers in Rhode Island are well
19 served by a program that supports improved and expanded opportunities for the public to access
20 the marine waters of the state; and

21 (11) The use of license fee revenues for any purpose other than managing recreational
22 fisheries and enhancing recreational fishing opportunities would: violate the terms of section 20-
23 9-3 and trigger a discontinuation of all federal funding provided to Rhode Island pursuant to the
24 Federal Aid in Sport Fish Restoration Act (16 U.S.C. section 777-777K); conflict with legislative
25 intent, as set forth in subdivision 20-3.1-7(3); veer from the restricted use requirements governing
26 freshwater fishing, commercial fishing, and hunting license fee revenues; affect compliance with
27 the requirements of this chapter; and compromise the purposes of this chapter.

28 **20-2.2-2. Purposes.** -- The purposes of this chapter are to:

29 (1) Enable recreational fisherman to fish legally in the marine waters of Rhode Island,
30 and in all offshore federal waters, via a state-based recreational fishing licensing program,
31 established in accordance with the requirements set forth by the federal Magnuson-Stevens
32 Fishery Conservation and Management Act (16 U.S.C. section 1601 et seq.);

33 (2) Establish a state-based licensing program that will: provide Rhode Island recreational
34 fisherman, including residents and non-resident visitors, with a convenient and inexpensive

1 licensing process; support and contribute to more accurate state-based fishing and resource
2 assessments; and provide for fair and effective management programs that optimize benefits and
3 opportunities for Rhode Island recreational fisherman; and

4 (3) Establish a dedicated funding vehicle to support improved coastal access
5 opportunities for recreational fisherman along the Rhode Island shoreline.
