1 deemed to be a manufacturer within a city or town within this state if that person uses any
2 premises, room, or place in it primarily for the purpose of transforming raw materials into a
3 finished product for trade through any or all of the following operations: adapting, altering,
4 finishing, making, and ornamenting; provided, that public utilities, non-regulated power

7 operations including distribution bases or outlets of out-of-state manufacturers, and fabricating
8 processes incidental to warehousing or distribution of raw materials such as alteration of stock for
9 the convenience of a customer, are excluded from this definition.

10 (ii) For the purposes of sections 44-3-3, 44-4-10, and 44-5-38, the term "manufacturer's
11 inventory" or any similar term means and includes the manufacturer's raw materials, the
12 manufacturer's work in process, and finished products manufactured by the manufacturer in this
13 state, and not sold, leased, or traded by the manufacturer or its title or right to possession
14 divested; provided, that the term does not include any finished products held by the manufacturer
15 in any retail store or other similar selling place operated by the manufacturer whether or not the
16 retail establishment is located in the same building in which the manufacturer operates the
17 manufacturing plant.

18 (iii) For the purpose of section 44-11-2, a "manufacturer" is a person whose principal
19 business in this state consists of transforming raw materials into a finished product for trade
20 through any or all of the operations described in paragraph (i) of this subdivision. A person will
21 be deemed to be principally engaged if the gross receipts which that person derived from the
22 manufacturing operations in this state during the calendar year or fiscal year mentioned in section
23 44-11-1 amounted to more than fifty percent (50%) of the total gross receipts which that person
24 derived from all the business activities in which that person engaged in this state during the
25 taxable year. For the purpose of computing the percentage, gross receipts derived by a
26 manufacturer from the sale, lease, or rental of finished products manufactured by the
27 manufacturer in this state, even though the manufacturer's store or other selling place may be at a
28 different location from the location of the manufacturer's manufacturing plant in this state, are
29 deemed to have been derived from manufacturing.

30 (iv) Within the meaning of the preceding paragraphs of this subdivision, the term
31 "manufacturer" also includes persons who are principally engaged in any of the general activities
32 coded and listed as establishments engaged in manufacturing in the standard industrial
33 classification manual prepared by the technical committee on industrial classification, office of
34 statistical standards, executive office of the president, United States bureau of the budget, as

1 revised from time to time, but eliminating as manufacturers those persons, who, because of their
2 limited type of manufacturing activities, are classified in the manual as falling within the trade
3 rather than an industrial classification of manufacturers. Among those thus eliminated, and
4 accordingly also excluded as manufacturers within the meaning of this paragraph, are persons
5 primarily engaged in selling, to the general public, products produced on the premises from which
6 they are sold, such as neighborhood bakeries, candy stores, ice cream parlors, shade shops, and
7 custom tailors, except, that a person who manufactures bakery products for sale primarily for
8 home delivery, or through one or more non-baking retail outlets, and whether or not retail outlets
9 are operated by person, is a manufacturer within the meaning of this paragraph.

10 (v) The term "Person" means and includes, as appropriate, a person, partnership, or
11 corporation.

12 (vi) The department of revenue shall provide to the local assessors any assistance that is
13 necessary in determining the proper application of the definitions in this subdivision.

14 (21) Real and tangible personal property acquired to provide a treatment facility used
15 primarily to control the pollution or contamination of the waters or the air of the state, as defined
16 in chapter 12 of title 46 and chapter 25 of title 23, respectively, the facility having been
17 constructed, reconstructed, erected, installed, or acquired in furtherance of federal or state
18 requirements or standards for the control of water or air pollution or contamination, and certified
19 as approved in an order entered by the director of environmental management. The property is
20 exempt as long as it is operated properly in compliance with the order of approval of the director
21 of environmental management; provided, that any grant of the exemption by the director of
22 environmental management in excess of ten (10) years is approved by the city or town in which
23 the property is situated. This provision applies only to water and air pollution control properties
24 and facilities installed for the treatment of waste waters and air contaminants resulting from
25 industrial processing; furthermore, it applies only to water or air pollution control properties and
26 facilities placed in operation for the first time after April 13, 1970;

27 (22) New manufacturing machinery and equipment acquired or used by a manufacturer
28 and purchased after December 31, 1974. Manufacturing machinery and equipment is defined as:

31 subdivision (20) of this section, and machinery, fixtures, and equipment used exclusively by a
32 manufacturer for research and development or for quality assurance of its manufactured products;

33 (ii) Machinery and equipment which is partially used in the actual manufacture or
34 conversion of raw materials or goods in process of manufacture by a manufacturer as defined in

1 subdivision (20) of this section, and machinery, fixtures, and equipment used by a manufacturer
2 for research and development or for quality assurance of its manufactured products, to the extent
3 to which the machinery and equipment is used for the manufacturing processes, research and
4 development or quality assurance. In the instances where machinery and equipment is used in
5 both manufacturing and/or research, and development, and/or quality assurance activities and
6 non-manufacturing activities, the assessment on machinery and equipment is prorated by
7 applying the percentage of usage of the equipment for the manufacturing, research, and
8 development and quality assurance activity to the value of the machinery and equipment for
9 purposes of taxation, and the portion of the value used for manufacturing, research, and
10 development, and quality assurance is exempt from taxation. The burden of demonstrating this
11 percentage usage of machinery and equipment for manufacturing and for research, and
12 development and/or quality assurance of its manufactured products rests with the manufacturer;
13 and

14 (iii) Machinery and equipment described in section 44-18-30(7) and (22) that was
15 purchased after July 1, 1997; provided that the city or town council of the city or town in which
16 the machinery and equipment is located adopts an ordinance exempting the machinery and
17 equipment from taxation. For purposes of this subsection, city councils and town councils of any
18 municipality may by ordinance wholly or partially exempt from taxation the machinery and
19 equipment discussed in this subsection for the period of time established in the ordinance and
20 may by ordinance establish the procedures for taxpayers to avail themselves of the benefit of any
21 exemption permitted under this section; provided, that the ordinance does not apply to any
22 machinery or equipment of a business, subsidiary or any affiliated business which locates or
23 relocates from a city or town in this state to another city or town in the state.

24 (23) Precious metal bullion, meaning any elementary metal which has been put through a
25 process of melting or refining, and which is in a state or condition that its value depends upon its
26 content and not its form. The term does not include fabricated precious metal which has been
27 processed or manufactured for some one or more specific and customary industrial, professional,
28 or artistic uses;

29 (24) Hydroelectric power generation equipment, which includes, but is not limited to,
30 turbines, generators, switchgear, controls, monitoring equipment, circuit breakers, transformers,
31 protective relaying, bus bars, cables, connections, trash racks, headgates, and conduits. The
32 hydroelectric power generation equipment must have been purchased after July 1, 1979, and
33 acquired or used by a person or corporation who owns or leases a dam and utilizes the equipment
34 to generate hydroelectric power;

1 (25) Subject to authorization by formal action of the council of any city or town, any real

9 recovery of materials (other than precious metals, as defined in section 44-18-30(24)(ii) and (iii)),
10 from or the treatment of "hazardous wastes", as defined in section 23-19.1-4, where the
11 "hazardous wastes" are generated primarily by the same taxpayer and where the personal property
12 is located at, in, or adjacent to a generating facility of the taxpayer. The taxpayer may, but need
13 not, procure an order from the director of the department of environmental management
14 certifying that the tangible personal property has this function, which order effects a conclusive
15 presumption that the tangible personal property qualifies for the exemption under this
16 subdivision. If any information relating to secret processes or methods of manufacture,
17 production, or treatment is disclosed to the department of environmental management only to
18 procure an order, and is a "trade secret" as defined in section 28-21-10(b), it shall not be open to

20 title 28 or chapter 24.4 of title 23;
