

2014 -- S 2522 SUBSTITUTE A

LC004534/SUB A

STATE OF RHODE ISLAND

IN GENERAL ASSEMBLY

JANUARY SESSION, A.D. 2014

A N A C T

RELATING TO HEALTH AND SAFETY

Introduced By: Senators Doyle, Nesselbush, Gallo, Lynch, and Ottiano

Date Introduced: February 27, 2014

Referred To: Senate Health & Human Services

It is enacted by the General Assembly as follows:

1 SECTION 1. Title 23 of the General Laws entitled "HEALTH AND SAFETY" is hereby
2 amended by adding thereto the following chapter:

3 CHAPTER 12.9

4 DENSE BREAST NOTIFICATION AND EDUCATION

5 **23-12.9-1. Short title.** – This chapter shall be known and may be cited as "The Dense
6 Breast Notification and Education Act."

7 **23-12.9-2. Public policy goals – Department of health.** – The department of health,
8 through the Rhode Island Cancer Council, is authorized and mandated to implement the following
9 public health policy goals as they relate to dense breast notification in Rhode Island.
10 Commencing on October 1, 2014, all health care facilities that perform mammography
11 examinations shall include in the summary of the mammography report to be provided to a
12 patient, information that identifies the patient's individual Breast Tissue Classification based on
13 the Breast Imaging Reporting and Data System established by the American College of
14 Radiology. If the facility determines that a patient has heterogeneously or extremely dense
15 breasts, the summary of the mammography report shall also include the following notice:

16 "Your mammogram indicates that you have dense breast tissue. Dense breast tissue is
17 relatively common and is found in about forty percent (40%) of women. The presence of dense
18 tissue can make it more difficult to detect cancers in the breast by mammography because it can
19 hide small abnormalities and may be associated with an increased risk. Hence, you may benefit

1 from supplementary screening tests, which may include a breast ultrasound screening, a breast
2 MRI examination, a 3-D tomosynthesis mammography, or multiple tests, depending on your
3 individual risk factors.

4 We are providing this information to raise your awareness of this important factor and to
5 encourage you to discuss your dense breast tissue, as well as other breast cancer risk factors, with
6 your health care provider. Together, you can decide which screening options are right for you.

7 A report of your results was sent to your physician. You should contact your physician if
8 you have any questions or concerns about this report."

9 SECTION 2. This act shall take effect upon passage.

EXPLANATION
BY THE LEGISLATIVE COUNCIL
OF
A N A C T
RELATING TO HEALTH AND SAFETY

1 This act would establish the "Dense Breast Notification and Education Act," which
2 would require the health care facility which performed a mammogram to notify the patient of any
3 finding of dense breast tissue along with basic information about dense breast tissue as it relates
4 to screening and risk factors for breast cancer.

5 This act would take effect upon passage.
