

2019 -- S 0773 SUBSTITUTE A

LC002138/SUB A

STATE OF RHODE ISLAND

IN GENERAL ASSEMBLY

JANUARY SESSION, A.D. 2019

A N A C T

RELATING TO HEALTH AND SAFETY - SEPSIS PROTOCOLS

Introduced By: Senators Pearson, Lynch Prata, and McCaffrey

Date Introduced: April 04, 2019

Referred To: Senate Health & Human Services

It is enacted by the General Assembly as follows:

1 SECTION 1. Chapter 23-17 of the General Laws entitled "Licensing of Health-Care
2 Facilities" is hereby amended by adding thereto the following section:

3 **23-17-65. Protocols for the early recognition and treatment of patients with severe**
4 **sepsis/septic shock.**

5 (a) For purposes of this section, the following words and terms shall have the following
6 meanings:

7 (1) "Sepsis" means a life-threatening organ dysfunction caused by a dysregulated host
8 response to infection.

9 (2) "Septic shock" means sepsis with persisting hypotension and having a serum lactate
10 level >2 mmol/L despite adequate volume resuscitation.

11 (b) On or before February 1, 2020, the director of health shall develop in coordination
12 with the Antimicrobial Stewardship and Environmental Cleaning task force, and make available to
13 health care practitioners, information on best practices for the treatment of patients with sepsis
14 and septic shock. The best practices shall be based on generally accepted standards of care,
15 including, but not limited to:

16 (1) An evidence based screening tool that can be used at initial evaluation of adult and
17 pediatric patients in the emergency department;

18 (2) An evidence based treatment protocol for adult and pediatric patients that includes
19 time-specific treatment goals;

- 1 (3) Nurse-driven testing protocols to enable nurses to initiate care for patients with
2 suspected sepsis;
- 3 (4) Incorporation of sepsis screening and treatment tools into the electronic health record
4 where possible;
- 5 (5) Mechanisms to prompt escalation of care within the facility, and, when appropriate, to
6 stabilize and transfer to a facility able to provide a higher level of care;
- 7 (6) Strategies for appropriate hand-offs and communication regarding the care of patients
8 with sepsis and for the reassessments of patients at regular intervals;
- 9 (7) Hospital specific antibiotic guidelines for use in treating patients with sepsis and a
10 mechanism for reevaluating a patient’s antibiotic treatment based on culture results that provides
11 reassessment and de-escalation of antibiotic treatment when appropriate; and
- 12 (8) Staff education on sepsis policies and procedures during the onboarding process and
13 at least annually or when new practice guidelines are published or existing standards are updated
14 to ensure that care reflects current standards of practice.
- 15 (c) In order to enhance patient safety and protection, each hospital and freestanding
16 emergency-care facility licensed in the state shall implement policies and procedures in
17 accordance with the best practices issued by the department of health.
- 18 (d) Beginning on February 1, 2021, the department of health shall not issue or renew a
19 license unless the applicant is in compliance with this section.

20 SECTION 2. This act shall take effect upon passage.

EXPLANATION
BY THE LEGISLATIVE COUNCIL
OF
A N A C T
RELATING TO HEALTH AND SAFETY - SEPSIS PROTOCOLS

1 This act would require hospital medical staff to adopt, implement, periodically update
2 and submit to the director of health, evidence-based protocols for the early recognition and
3 treatment of patients with sepsis and septic shock ("sepsis protocols" that are based on generally
4 accepted standards of care).

5 This act would take effect upon passage.
